Listening Homework 3

Book 2 Unit 4

Questions 1-7 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. [L01] **Trees help slow global warming by taking in carbon dioxide.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. [L01] **Cutting down trees makes global warming less serious.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. [L01] **Temperature changes can interfere with normal forest growth.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. [L01] **The rainforests discussed are now receiving more rain.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. [L01] **Scientists believe government work is progressing quickly enough.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

6. [L01] **The prediction concerns complete changes to 45 percent of forest areas.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. [L01] **All governments have agreed to spend the same amount on forests.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 2 Unit 4

Questions 8-11 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

8. [L02] **The purple frog is described as unable to move quickly.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. [L02] **Biju discovered the frog in 2003.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. [L02] **For Biju, the frog's problems indicate damage beyond one animal.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

11. [L02] **Biju thinks forest protection is unnecessary for the frog.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 2 Unit 4

Questions 12-15 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

12. [L02] **Biju will present his information next week.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

13. [L02] **The planned meeting will last exactly three days.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

14. [L02] **Biju warns that delaying plans could mean losing some species.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

15. [L02] **The reporter says the purple frog has already disappeared forever.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 2 Unit 4

Questions 16-20 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

16. A call to plan immediately to avoid losing species.

☐ L01 ☐ L02

17. Reduced rainfall changing how forests function.

☐ L01 ☐ L02

18. A description of trees taking in a gas that warms the atmosphere.

☐ L01 ☐ L02

19. A researcher's planned presentation during the coming week.

☐ L01 ☐ L02

20. A comparison between an animal's call and a small chicken.

☐ L01 ☐ L02

Listening Homework 3

Book 2 Unit 4

Questions 21-25 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

21. A cycle in which tree loss and warming worsen each other.

☐ L01 ☐ L02

22. Criticism of the speed of government action.

☐ L01 ☐ L02

23. The year in which a particular animal was discovered.

☐ L01 ☐ L02

24. A percentage prediction about future forest change.

☐ L01 ☐ L02

25. A difference between public indifference and a researcher's concern.

☐ L01 ☐ L02

Where Does the Rain Go? Passage B

A In a neighbourhood, heavy rain regularly left a pool of water beside the community hall. People first blamed a blocked drain, but cleaning it did not solve the problem. Hall manager Jo asked a local garden group to watch what happened during the next shower. They saw water running quickly from the smooth car park onto the narrow path. The problem was not simply how much rain fell: the hard surface gave the water few places to enter the ground.

B The group proposed a shallow planted area beside the car park. During rain, water could collect there and gradually enter the soil. Before digging, a qualified worker checked for pipes under the ground. The group also tested a small patch of soil with water and timed how quickly it drained. One suggested position stayed wet too long, so they chose another farther from the hall wall. The final plan left the main path clear and did not remove the space reserved for accessible parking.

C Building took two weekends. Volunteers removed part of the hard surface and shaped a shallow hollow. A garden adviser helped choose plants suited to both wet and dry periods. The group put stones along the edge where water entered, so flowing water would not immediately wash soil away. They left a clear overflow route for storms that brought more water than the planted area could hold. Jo explained that the garden could help with ordinary showers but was not a promise that flooding would never happen.

Where Does the Rain Go? Passage B

D Students from a nearby school helped observe the result. After each shower, they recorded the depth of water in the hollow and the time it took to disappear. They also noted how much rain had fallen using the same rain gauge. The first two observations looked very different, but the second shower had been much heavier. Their teacher asked them to compare showers with similar rainfall before judging the garden. Photographs were taken from a marked spot so changes could be compared more easily.

E During a dry month, the new plants needed watering while their roots developed. Later, a bag blocked the overflow route, and volunteers removed it during a regular check. Jo added that route to the hall's maintenance list. The group placed a simple sign beside the garden explaining its purpose and asking visitors to keep rubbish out. The area also attracted insects, which students enjoyed watching. However, keeping the path usable during rain remained the project's main purpose.

Reading Homework 3

Book 2 Unit 4

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A-B**. Questions 6-10: **C-D**.

Cleaning the **(1)** _____ did not prevent water collecting near the hall. Observers traced it back to the hard car **(2)** _____. Before work began, a qualified worker checked for underground **(3)** _____. Tests showed that one patch of **(4)** _____ stayed wet too long, so another position was chosen while keeping the main **(5)** _____ clear.

Volunteers shaped a shallow **(6)** _____ and planted it with advice. **(7)** _____ protected the entry edge from flowing water, and a clear **(8)** _____ route dealt with larger storms. Students used one rain **(9)** _____ and took **(10)** _____ from a marked spot to help compare results fairly.

Reading Homework 3

Book 2 Unit 4

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Checking a suitable location before digging

ii. Making fair comparisons after rainfall

iii. Following water to find the real cause

iv. Guaranteeing an end to every flood

v. Replacing the hall with a larger car park

vi. Maintaining the garden and its main purpose

vii. Building a garden with a limit in mind

11. Paragraph A

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

12. Paragraph B

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

13. Paragraph C

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Reading Homework 3

Book 2 Unit 4

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. What showed that a blocked drain was not the whole problem?

- ☐ A. Cleaning it failed to solve the pooling
- ☐ B. The garden group found no rain
- ☐ C. The hall stopped using water

17. Why did the hard surface matter?

- ☐ A. It gave water few places to enter the ground
- ☐ B. It absorbed all the water immediately
- ☐ C. It made every shower last longer

18. Why was a worker consulted before digging?

- ☐ A. To count insects
- ☐ B. To locate underground pipes
- ☐ C. To choose the sign's colour

19. Why was the first proposed position rejected?

- ☐ A. It was too far from every path
- ☐ B. It had no plants growing yet
- ☐ C. Water drained too slowly there

20. Why were stones placed at the water entry?

- ☐ A. To make the hollow deeper after each storm
- ☐ B. To reduce the washing away of soil
- ☐ C. To block the water completely

Reading Homework 3

Book 2 Unit 4

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. Why did the plan include an overflow route?

- ☐ A. The plants needed to stay underwater forever
- ☐ B. Ordinary showers could not enter the garden
- ☐ C. Some storms could exceed the garden's capacity

22. Why could the first two observations not be directly compared?

- ☐ A. The second shower was much heavier
- ☐ B. The hollow had moved
- ☐ C. Different students owned different cameras

23. What made the photographs easier to compare?

- ☐ A. They were taken from a marked spot
- ☐ B. They were taken only indoors
- ☐ C. They always showed the same insects

24. Why did the new plants initially need water in dry weather?

- ☐ A. The sign instructed visitors to flood the path
- ☐ B. The overflow route required continuous water
- ☐ C. Their roots were still developing

25. Which outcome remained the main goal?

- ☐ A. Removing all parking spaces
- ☐ B. Attracting the largest number of insects
- ☐ C. Keeping the path usable during rain

Speaking Homework 3

Book 2 Unit 4

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Less rain".
the soil / Less rain / can cause / to become dry

2. Start with "The path".
was wet / we walked carefully / so / The path

3. Start with "Strong winds".
fallen branches / can lead to / Strong winds

4. Start with "Because the room was hot,".
Because the room was hot, / we / the window / opened

5. Start with "This change".
wildlife / near the lake / may affect / This change

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: The wet path explains your slow pace. Choose because or but.

Friend: Why are you walking slowly?

You: _____ the path is wet.

7. Situation: The wind blew papers away. Choose result or reason.

Friend: What happened to your notes?

You: The wind picked up. As a _____, some papers blew away.

8. Situation: Dry weather caused the soil to become hard. Choose caused or enjoyed.

Friend: Why is the ground so hard?

You: The dry weather _____ it to become hard.

9. Situation: Your group expects less shade after tree loss. Choose more or less.

Friend: What could happen if those trees disappear?

You: There could be _____ shade.

10. Situation: Rain interrupted the game. Choose because or so.

Friend: Did you finish the game outside?

You: No, it started raining, _____ we went indoors.

Speaking Homework 3

Book 2 Unit 4

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Explain a short cause-and-effect chain.

Opening: One small change can affect the whole afternoon.

A	The field becomes too wet for the game.
B	As a result, the game moves indoors.
C	Heavy rain falls on the field.

12. Explain how shade affects a place.

Opening: There is a reason we like that corner of the park.

A	Tall trees provide shade over the benches.
B	That makes them a pleasant place to rest on a warm day.
C	The shaded benches receive less direct sunlight.

13. Explain an effect of dry weather.

Opening: The garden shows what the weather has been like.

A	Some plants in the dry soil are beginning to wilt.
B	Without that rain, the soil has become dry.
C	There has been very little rain.

14. Explain why a path needs attention.

Opening: Our usual route is difficult to use today.

A	Strong wind has broken several branches.
B	The blocked path means we must use another route.
C	Those branches have fallen across the path.

15. Explain a possible effect on animals.

Opening: Changes near a lake can matter to more than people.

A	A long dry period may lower the lake's water level.
B	That change may make some animals move elsewhere.
C	The lower water level could change the animals' feeding area.

Speaking Homework 3

Book 2 Unit 4

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Explain one weather event and a chain of two effects in an everyday situation.

Model: Heavy rain fell during the afternoon. The playing field became very wet. As a result, our match could not continue outside. The teams moved to the sports hall.

17. Explain why a shady place may be useful on a warm day. Support your explanation with a visible feature.

Model: The trees shade the benches in our park. Less direct sunlight reaches the seats. This makes the area more comfortable on a warm afternoon. I would choose it for a short rest.

18. Describe a possible effect of dry weather on a local place. Use cautious language.

Model: A long dry period may lower the water level in a pond. Some shallow areas could become dry. This could reduce the space available to pond animals. The effects would depend on how long the dry weather lasts.

Speaking Homework 3

Book 2 Unit 4

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

19. Explain a change to a class plan using cause-and-effect language.

Model: The forecast suggests strong wind tomorrow. That could make our outdoor display difficult to use. We plan to put the display in the hall instead. This change should help visitors read the posters.

20. Describe a weather observation and distinguish it from a possible explanation.

Model: The path is covered with fallen leaves today. I also noticed strong wind last night. The wind may have moved the leaves onto the path. I would check the weather record before being certain.

Speaking Homework 3

Book 2 Unit 4

Questions 21-22 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: cause / prevent / dry

21. Explain a cause and effect shown by the covered picnic area.

Words: prevent / cool / become

22. Give one benefit and one limitation of this covered space.

Speaking Homework 3

Book 2 Unit 4

Questions 23-25 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: cause / prefer / cool

23. Describe the person working in the shade and suggest why she chose this place.

Words: dry / save / carefully

24. Suggest a response to warm, dry weather and explain why.

Words: prefer / cause / carefully

25. Explain how the tree could affect a gardener’s choice of working place.

Writing Homework 3

Book 2 Unit 4

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "July".

July / was / June / warmer than

2. Start with "The afternoon".

The afternoon / the warmest part / of the day / was

3. Start with "Town A".

had / Town B / more rain than / Town A

4. Start with "The minimum temperature".

lower / was / The minimum temperature / on Monday

5. Start with "The record".

a clear rise / The record / shows / in temperature

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Data: A 16°C; B 21°C. Use the comparative of warm.

Place B was _____ than Place A.

7. Data: 8°C, 12°C, 17°C. Use the superlative of high.

The _____ temperature was 17°C.

8. Data: Monday 14 mm; Tuesday 6 mm. Choose more or less.

Monday had _____ rain than Tuesday.

9. Data: morning 7°C; afternoon 18°C. Use the comparative of cold.

The morning was _____ than the afternoon.

10. Complete the example marker with example or result.

The afternoons were warm. For _____, Friday reached 24°C.

Writing Homework 3

Book 2 Unit 4

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a paragraph comparing two places.

A	This difference was greater than the morning gap of two degrees.
B	Place A was warmer than Place B in the record.
C	Its afternoon temperature was 22°C, compared with 17°C in B.

☐ B-C-A ☐ A-C-B ☐ C-A-B

12. Order a paragraph describing the wettest day.

A	That amount was twice Tuesday's total of 10 mm.
B	Its total was 20 mm.
C	Wednesday had the most rain in the record.

☐ B-A-C ☐ C-A-B ☐ C-B-A

13. Order a paragraph with an example.

A	Temperatures rose across the three recorded mornings.
B	By Wednesday, that rise had continued to 13°C.
C	For example, they increased from 8°C on Monday to 11°C on Tuesday.

☐ A-C-B ☐ B-A-C ☐ A-B-C

14. Order a paragraph about a range.

A	The minimum was 4°C and the maximum was 19°C.
B	The difference between those values was 15 degrees.
C	The data show a large daily temperature range.

☐ C-A-B ☐ B-A-C ☐ C-B-A

15. Order a paragraph with a clear topic.

A	At nine, the temperature was only 6°C.
B	This was eight degrees below the afternoon value.
C	The evening was the coolest part of this record.

☐ B-C-A ☐ C-A-B ☐ B-A-C

Writing Homework 3

Book 2 Unit 4

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Compare temperatures: Town A morning 9°C, afternoon 22°C; Town B morning 7°C, afternoon 17°C. Start with a topic sentence.

Model: Place C was warmer than Place D at both recorded times. In the morning, C was 10°C and D was 8°C. In the afternoon, C reached 21°C, while D reached 16°C. The afternoon difference was larger.

17. Describe rainfall: Monday 5 mm; Tuesday 10 mm; Wednesday 20 mm. Give an overview and supporting figures.

Model: Rainfall increased across the three days in this record. It began at 3 mm on Thursday. It rose to 7 mm on Friday and 12 mm on Saturday. Saturday was the wettest day.

18. Describe temperatures: dawn 3°C; noon 14°C; afternoon 18°C; evening 9°C. Include the maximum and minimum.

Model: The temperature rose before falling in the evening. The minimum was 4°C at dawn. It increased to 15°C at noon and a maximum of 20°C in the afternoon. It then fell to 10°C.

Writing Homework 3

Book 2 Unit 4

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Compare two rainfall totals: Park A 24 mm; Park B 8 mm. State the difference and support a clear main point.

Model: The first site had more rain than the second. Its total was 18 mm. The second site recorded 6 mm, giving a difference of 12 mm. The first total was three times the second.

20. Describe weekly highs: Monday 16°C; Tuesday 20°C; Wednesday 24°C. Use a topic sentence and an example.

Model: The daily high temperatures increased steadily in the record. They rose from 15°C on Thursday to 18°C on Friday. For example, the final day reached 21°C. Each daily rise was three degrees.

Writing Homework 3

Book 2 Unit 4

Questions 21-22 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: minimum / cover / fall

21. Write a topic sentence and supporting details. Data: village minimum −4°C; nearby town minimum 2°C.

Words: precipitation / careful / increase

22. Compare two places. Data: Village A has 3 mm precipitation; Town B has 12 mm.

Writing Homework 3

Book 2 Unit 4

Questions 23-25 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: maximum / cover / minimum

23. Write a topic sentence and details about the shaded city park. Data: the maximum temperature is 28°C.

Words: reach / cover / increase

24. Compare two places. Data: shaded park 28°C; open square 31°C.

Words: minimum / maximum / decrease

25. Describe two ways people use this park on a sunny day. Connect them in a short paragraph.
