Listening Homework 2

Book 3 Unit 1

Questions 1-5 Sentence completion

Write **ONE WORD AND/OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

1. [1.1-S01] **The animal domesticated before the others was the _____, which still helps keep homes safe.**

2. [1.1-S02] **Animals carrying armies faced death during _____.**

3. [1.1-S03] **Johnson says animals cannot defend their own _____ because they have no representative.**

4. [1.1-S04] **Humans used animals for jobs that required more skill or physical _____.**

5. [1.1-S05] **Some children lack basic items to wear, or _____, despite the money given to animal care.**

Listening Homework 2

Book 3 Unit 1

Questions 6-10 Sentence completion

Write **ONE WORD AND/OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

6. [1.2-S01] **The report says neither African elephant species is safe from extinction; both are _____ .**

7. [1.2-S02] **The illegal trade focuses on the tusks' material, which poachers sell as _____ .**

8. [1.2-S03] **The food supply falls even though the number of elephants needing it for _____ stays the same.**

9. [1.2-S04] **Habitat loss can push elephants out of the _____ and into villages.**

10. [1.2-S05] **The speaker says a trade ban is needed to stop forest elephants becoming _____ .**

Listening Homework 2

Book 3 Unit 1

Questions 11-15 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

11. [1.1-S01] **How does the host explain animals' contribution to human survival?**

- ☐ A. They have mainly protected food from thieves.
- ☐ B. They have made exploration more important than farming.
- ☐ C. They have supplied food as well as labour.

12. [1.1-S02] **What example does Johnson use to show that animals' contribution is often overlooked?**

- ☐ A. Animals replaced all modern machines
- ☐ B. Animals helped build the pyramids
- ☐ C. Animals were kept only as pets

13. [1.1-S03] **Why does Johnson mention children working in factories?**

- ☐ A. To explain why animals began working two centuries ago.
- ☐ B. To show how factory technology replaced animals.
- ☐ C. To compare profits made through vulnerable workers.

14. [1.1-S03] **What does Johnson say happens to some animals when they can no longer work?**

- ☐ A. They are abandoned when sick or old
- ☐ B. They are sent to animal shelters immediately
- ☐ C. They receive higher rewards for their service

15. [1.1-S04] **Why does Kuryan say animals remain necessary in some low-income countries?**

- ☐ A. Governments forbid modern transport
- ☐ B. People cannot afford cars, alarms or machines
- ☐ C. People prefer animals to all technology

Listening Homework 2

Book 3 Unit 1

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

16. [1.1-S05] **What concern does Kuryan raise about society's priorities?**

- ☐ A. People may prefer wild animals to domesticated ones.
- ☐ B. Animal charities may focus too much on expensive machines.
- ☐ C. Poor people may receive less concern than animals.

17. [1.2-S02] **What explanation is given for the continued hunting?**

- ☐ A. The smaller elephants are easier for farmers to move.
- ☐ B. Villagers need to protect crops inside the forest.
- ☐ C. The tusks can bring hunters a large income.

18. [1.2-S03] **What pressure does habitat loss place on forest elephants?**

- ☐ A. They share less available food
- ☐ B. They become unable to eat leaves
- ☐ C. They move to a larger protected forest

19. [1.2-S05] **Which statement best describes the speaker's final attitude?**

- ☐ A. Recovery is likely once the present measures continue.
- ☐ B. More study is needed before governments decide what to do.
- ☐ C. Recovery is possible, but action must be urgent.

20. [1.2-S05] **What action does the speaker say governments must take on ivory?**

- ☐ A. Allow local trade inside each country
- ☐ B. Move all elephants to fenced farms
- ☐ C. Introduce a complete ban on buying and selling it

Listening Homework 2

Book 3 Unit 1

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

21. [1.1-S01] **Which TWO historical details are given about domestication?**

- ☐ A. Elephants were domesticated before dogs
- ☐ B. Camels were first used in the twentieth century
- ☐ C. Donkeys were used about 6,000 years ago
- ☐ D. Horses were domesticated in Europe and Asia
- ☐ E. Dogs were first domesticated in Egypt

22. [1.1-S03] **Which TWO comparisons does Johnson make?**

- ☐ A. Animals can vote for representatives
- ☐ B. Owners profit from vulnerable workers
- ☐ C. Modern factories rely on elephants
- ☐ D. Children and animals receive equal protection
- ☐ E. Animal exploitation resembles child factory labour

23. [1.1-S05] **Which TWO forms of support for animals does Kuryan mention?**

- ☐ A. A ban on all animal shelters
- ☐ B. Free cars for farmers
- ☐ C. Laws against suffering
- ☐ D. Donations to animal charities
- ☐ E. Guaranteed employment for animals

Listening Homework 2

Book 3 Unit 1

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

24. [1.2-S04] **Which TWO consequences of elephant contact with villages are mentioned?**

- ☐ A. Elephants damage crops
- ☐ B. Rainforest food becomes more plentiful
- ☐ C. Elephants receive more farmland
- ☐ D. Local people may kill elephants
- ☐ E. Villagers begin selling ivory legally

25. [1.2-S05] **Which TWO proposed protections are stated?**

- ☐ A. New roads through the rainforest
- ☐ B. A smaller ban on ivory
- ☐ C. More trained rainforest guards
- ☐ D. Extra farmland for poachers
- ☐ E. Fences for local communities

Reading Homework 2

Book 3 Unit 1

Passage A

A A wildlife team studies a pair of beavers living beside a woodland stream. The area was chosen because it offered trees, water and space away from busy roads. Before the animals arrived, the team photographed fixed points beside the stream. They also recorded which plants and birds were present. These early records would help them describe later changes, rather than depend only on visitors' memories.

B The beavers built a dam from branches and mud. Water collected behind it, forming a pond where the ground had previously been dry. The team did not remove the dam simply because the landscape looked different. Instead, they measured the pond and watched how water moved through the site. They marked its edge on a map after rain and again during a dry period to see how far it changed.

C After several months, volunteers noticed more insects beside the pond. Birds were often seen feeding there too. However, the team avoided saying that every new animal had arrived because of the beavers. Some birds visited the woodland only during particular seasons. Volunteers therefore repeated their counts at the same points and kept notes on the date and weather. Comparing similar conditions made their records more useful.

D A farmer nearby was less enthusiastic. Water had reached a corner of a field where he kept equipment. The team visited the field with him instead of treating his complaint as opposition to all wildlife. Together they marked the affected area and agreed to check it after heavy rain. The project needed to protect the animals while also taking problems on neighbouring land seriously.

Passage A

E Visitors were another part of the project. People wanted photographs, but approaching the pond could disturb the animals. The team created a viewing place beside an existing path and provided a short guide. Visitors were asked to stay on the path and take litter home. A volunteer explained what people might see, without promising that the beavers would appear during every visit.

F At the end of the year, the team compared its new photographs with the original pictures. The pond was clearly visible, and the wet area supported different plants. The report included the farmer's concern as well as the wildlife observations. It also listed gaps in the evidence: for example, the team had not measured changes in water quality. A complete account included unanswered questions, not only encouraging results.

G The team planned another year of observation. It would keep the same recording points and continue meeting the farmer. The aim was not to prove that every beaver project succeeds. It was to understand what happened at this site and decide which small changes might help both wildlife and local people.

Reading Homework 2

Book 3 Unit 1

Questions 1-5 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. Before the beavers arrived, the team photographed fixed points beside the stream.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. Water collected behind the dam and formed a pond.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. The team removed the dam because the landscape looked different.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. The team said that every new animal had arrived because of the beavers.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. The farmer kept equipment in the corner of the field reached by water.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 6-10 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

6. The team visited its recording points every morning.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. Visitors were promised that the beavers would appear on every visit.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

8. The final report included the farmer's concern.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. The team measured changes in water quality.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. The team planned another year using the same recording points.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 11-15 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

11. The report identifies an evidence gap about water quality.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

12. Wildlife counts are repeated at fixed points with records of the date and weather.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

13. Seasonal timing could affect the wildlife observations.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

14. A complaint is treated as a specific problem to investigate.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

15. The extent of water is checked in contrasting weather.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

Questions 16-20 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

16. Observation will continue for another year using the same recording points.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

17. The site is documented before the animals arrive.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

18. The team agrees to revisit the affected field after heavy rain.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

19. The next stage avoids claiming that every project succeeds.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

20. Visitors receive a designated viewing place and are asked to remain on the path.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

21. Which TWO statements best explain why the team repeated observations?

- ☐ A. They compared records made under similar date and weather conditions.
- ☐ B. They measured water quality after the pond formed.
- ☐ C. They reduced the effect of seasonal differences on the wildlife counts.
- ☐ D. They guaranteed that visitors would see the beavers.
- ☐ E. They treated every new animal as proof of a beaver effect regardless of season.

22. Which TWO statements best describe how the project balanced wildlife and local land concerns?

- ☐ A. The team judged success only by visitor numbers.
- ☐ B. The team blocked all visitors from reaching the pond.
- ☐ C. The team removed the dam to keep the farmer's field dry.
- ☐ D. The team marked the affected area and agreed to inspect it after heavy rain.
- ☐ E. The team planned to continue meeting the farmer while observing the site.

23. Which TWO points does the final report support about the evidence?

- ☐ A. The team abandoned the same recording points after one year.
- ☐ B. The report proved that all changes were caused by the beavers.
- ☐ C. The pond was visible and the wet area supported different plants.
- ☐ D. The team measured water quality comprehensively.
- ☐ E. The report kept unanswered questions alongside encouraging results.

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

24. Which TWO statements describe how the team planned to continue the project?

- ☐ A. The same recording points were kept so another year could be compared with the first records.
- ☐ B. The first photographs were taken after the second year of observation.
- ☐ C. The team planned to remove the dam before making another year's records.
- ☐ D. The team planned to continue meeting the farmer while observing the same site.
- ☐ E. The plan was to prove that every beaver project succeeds.

25. Which TWO conclusions are justified about visitors?

- ☐ A. The guide guaranteed a beaver sighting on every visit.
- ☐ B. Visitors were told to stay on the path and take litter home.
- ☐ C. All visitors ignored the team's instructions.
- ☐ D. Visitors' photographs were used to measure water quality.
- ☐ E. The viewing place beside an existing path reduced the need to approach the pond.

Speaking Homework 2

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Local people".
a fence / near the fields / Local people / could build

2. Start with "Governments".
the ivory trade / need to ban / Governments

3. Start with "Communities".
should cooperate / to protect wildlife / Communities

4. Start with "Farmers".
near elephant habitat / might use / Farmers / safer methods

5. Start with "Rangers".
quickly / illegal hunting / Rangers / must report

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: Elephants are entering farms and damaging food crops. Choose speech or fence.

Friend: What might the community do?

You: They could build a _____.

7. Situation: Two villages share one forest with endangered animals. Choose cooperate or compete.

Friend: What should the villages do?

You: They should _____ to protect it.

8. Situation: People are buying ivory across national borders. Choose buy or ban.

Friend: What law is needed?

You: Governments need to _____ the ivory trade.

9. Situation: A ranger sees evidence of illegal hunting. Choose report or hide.

Friend: What must the ranger do?

You: She must _____ it quickly.

10. Situation: A farmer works near a nesting area. Choose should or must not.

Friend: What advice can you give?

You: He _____ use safer methods near the nests.

Speaking Homework 2

Book 3 Unit 1

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Recommend a response to crop damage.

Opening: Our community needs a plan for elephants near farms.

A	They can damage crops and frighten farmers.
B	The community could build a fence near the fields.
C	Elephants sometimes enter fields at night.

12. Explain why countries need to cooperate.

Opening: I am preparing a short presentation about ivory.

A	Ivory can be sold across national borders.
B	Governments need to cooperate and ban the trade.
C	One country cannot stop this trade alone.

13. Suggest a role for trained guards.

Opening: The rainforest is large and difficult to protect.

A	Local people may not be able to stop them.
B	Trained guards could patrol and report illegal hunting.
C	Poachers can move through remote forest areas.

14. Propose a safer farming practice.

Opening: A farm is close to a bird nesting area.

A	Heavy machines can disturb the nesting area.
B	The birds need a quiet place for their eggs.
C	The farmer might avoid using machines there in spring.

15. Explain a community solution.

Opening: A village wants to protect a nearby wetland.

A	Residents could organize regular clean-up days.
B	Rubbish from the village enters the water.
C	The wetland is home to many species.

Speaking Homework 2

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

16. A village has elephants near its farms. Propose a practical plan with a reason.

Model: Elephants sometimes damage crops near the village. The community could build a strong fence. Rangers should check the fence regularly. This could keep elephants and farmers safer.

17. Explain why an ivory ban needs cooperation between countries.

Model: Ivory can move from one country to another. Governments need to ban the trade together. They should share information about illegal sellers. This could make the ban more effective.

18. Recommend a way to protect a nesting habitat near a town.

Model: Birds nest near the river beside the town. People should keep rubbish away from the river. The town could put up signs near the nesting area. This may give the birds a safer habitat.

Speaking Homework 2

Book 3 Unit 1

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

19. Give a ranger advice for responding to suspected poaching.

Model: A ranger finds footprints near an elephant area. She must report the evidence quickly. Trained guards could search the area together. They should avoid putting themselves in danger.

20. Suggest a shared action for protecting a threatened species.

Model: Frogs in a local pond are becoming rare. Schools and families could clean the pond together. People should not pour chemicals into the water. This could improve the frogs' habitat.

Speaking Homework 2

Book 3 Unit 1

Questions 21-22 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: protect / damage / species

21. Describe the rangers and fence. Suggest what they may be checking.

Words: protect / damage / environment

22. Suggest how the rangers could record a problem with the fence.

Speaking Homework 2

Book 3 Unit 1

Questions 23-25 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: protect / environment / species

23. Describe the volunteers' work and a possible purpose.

Words: damage / suffer / environment

24. Explain one possible problem if the rubbish is left beside the pond.

Words: support / depend on / environment

25. Suggest a community activity to support this pond.

Writing Homework 2

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "The tiger shark".

has / and a powerful bite / sharp teeth / The tiger shark

2. Start with "The whale shark".

aggressive or dangerous / is not / The whale shark

3. Start with "Whale sharks".

whereas tiger sharks / Whale sharks / are more dangerous / are larger,

4. Start with "Both species".

live / Both species / in major oceans

5. Start with "Neither species".

needs / a freshwater habitat / Neither species

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose and or or. Add a second feature.

The tiger shark has sharp teeth _____ a powerful bite.

7. Choose so or whereas. The sentence contrasts two behaviours.

Whale sharks feed by filtering water, _____ tiger sharks hunt larger animals.

8. Choose neither or both. In this reserve, the two shark species live only in salt water.

_____ species lives in a freshwater tank.

9. Choose aggressive or endangered.

The whale shark is not _____ towards humans.

10. Choose habitat or species.

The two shark _____ both live in oceans.

Writing Homework 2

Book 3 Unit 1

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a contrast paragraph about shark size and diet.

A	Tiger sharks are smaller but eat tuna and turtles.
B	Whale sharks are much larger than tiger sharks.
C	However, they eat plankton and other tiny animals.

☐ B-C-A ☐ B-A-C ☐ C-B-A

12. Order a combined-sentence explanation.

A	It therefore can be dangerous to humans.
B	It also has a powerful bite.
C	The tiger shark has sharp teeth.

☐ C-A-B ☐ B-A-C ☐ C-B-A

13. Order a similarity statement.

A	However, their colours and diets are different.
B	Whale sharks and tiger sharks both live in oceans.
C	Both have fins and a divided tail.

☐ B-A-C ☐ B-C-A ☐ A-B-C

14. Order an endangered-species comparison.

A	People need to protect whale sharks from further threats.
B	The whale shark is an endangered species.
C	The tiger shark is not currently at risk of extinction.

☐ B-C-A ☐ A-C-B ☐ C-B-A

15. Order a comparison using neither.

A	The whale shark does not live in freshwater.
B	Neither species needs a river habitat.
C	The tiger shark does not live in freshwater.

☐ A-C-B ☐ C-B-A ☐ B-A-C

Writing Homework 2

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

16. Write four sentences comparing the size, diet and behaviour of the two sharks.

Model: The whale shark is much larger than the tiger shark. However, it eats tiny animals such as plankton. The tiger shark eats larger animals and can be dangerous to humans. Both species live in oceans.

17. Compare two animal descriptions using and. Use the classroom reading or your own supported observations.

Model: The tiger shark has a broad head and visible body markings. Its tail helps it move through water. Its shape is different from a squirrel's shape. The two animals use very different habitats.

18. Write a four-sentence paragraph using both and neither about two animals.

Model: Both red and grey squirrels have long tails. Both live in Britain. Neither species is endangered worldwide. However, red squirrels face more threats in Britain.

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

19. Reserve notes: Group A has fewer nesting sites; Group B has unchanged nesting sites. Compare the situations and suggest one action.

Model: In a reserve, one animal group has lost some feeding space. Another group still has the same feeding area. The first group may need closer study. Staff should check what caused the change.

20. Write four sentences contrasting two animals for an information board.

Model: The whale shark is a gentle giant, whereas the tiger shark can be dangerous. Whale sharks eat plankton, but tiger sharks eat larger animals. Both live in oceans. Visitors should respect both species.

Writing Homework 2

Book 3 Unit 1

Questions 21-22 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: natural / common / species

21. Describe the large animal and two details in the water.

Words: major / species / natural

22. Compare the whale shark with the smaller fish visible beside it.

Writing Homework 2

Book 3 Unit 1

Questions 23-25 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: species / native / natural

23. Describe the positions of the two squirrels.

Words: species / affect / survive

24. Compare a visible similarity and difference between the squirrels.

Words: protect / chemical / damage

25. Suggest a way to protect this woodland setting.
