Listening Homework 3

Book 3 Unit 1

Questions 1-7 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. [1.1-L01] **Johnson says working animals helped humans develop civilization.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. [1.1-L01] **Using an elephant for logging costs ten thousand dollars a year.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. [1.1-L01] **Johnson says animals used in wars were always returned safely.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. [1.1-L01] **Johnson identifies the country that first banned animal labour.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. [1.1-L01] **Johnson says dogs are still used to pull sleds in cold climates.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

6. [1.1-L01] **Johnson believes technology can now replace working animals.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. [1.1-L01] **Johnson says animals are protected by elected representatives.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 8-11 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

8. [1.1-L02] **Kuryan says camels and horses helped carry goods across large distances.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. [1.1-L02] **One international charity pays all the costs of Kuryan's local animal shelters.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. [1.1-L02] **Kuryan says people in low-income countries can easily buy expensive machines.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

11. [1.1-L02] **Kuryan argues that every use of an animal is abuse.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 12-15 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

12. [1.1-L02] **Kuryan says domesticated animals need human care to survive.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

13. [1.1-L02] **Kuryan says millions of children lack food or clothing.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

14. [1.1-L02] **Kuryan says animal charities have ended all wildlife loss.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

15. [1.1-L02] **Kuryan thinks society often gives more concern to animals than to poor people.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 3 Unit 1

Questions 16-20 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

16. A contrast involving children without basic necessities

☐ 1.1-L01 ☐ 1.1-L02

17. A comparison with child labour in factories

☐ 1.1-L01 ☐ 1.1-L02

18. A modern task performed by dogs in cold places

☐ 1.1-L01 ☐ 1.1-L02

19. A reason why some people cannot replace animals with machines

☐ 1.1-L01 ☐ 1.1-L02

20. A judgement that using animals for work is cruel and outdated

☐ 1.1-L01 ☐ 1.1-L02

Listening Homework 3

Book 3 Unit 1

Questions 21-25 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

21. An example of animals being used for military transport

☐ 1.1-L01 ☐ 1.1-L02

22. A description of dogs helping people hunt and protecting them from wild animals

☐ 1.1-L01 ☐ 1.1-L02

23. A reason some old working animals suffer after illness

☐ 1.1-L01 ☐ 1.1-L02

24. A claim that domesticated animals also rely on people

☐ 1.1-L01 ☐ 1.1-L02

25. Examples of organized support intended to reduce animal suffering

☐ 1.1-L01 ☐ 1.1-L02

Under the Old Bridge Passage B

A At Moorbridge, wildlife officer Lina Patel became concerned after drivers reported seeing hedgehogs and foxes on the road beside an old stone bridge. The bridge already had a dry passage underneath it, but rubbish and fallen branches made the entrance difficult to see. Lina did not assume that every animal would use it. With two volunteer conservationists, she first checked muddy ground for tracks and spoke to road-maintenance staff about when the verge was cut. Their aim was to reduce risky crossings without closing a road used by local buses.

B The team learned that hedgehogs tended to follow the edge of a hedge, while foxes often used the stream bank. They cleared only the blocked entrance, leaving the stream vegetation in place. A short fence then guided animals from the hedge towards the passage rather than directly towards the road. At each end, Lina added a shallow strip of sand where footprints could be seen. The team avoided putting food inside the bridge, because food could change the animals' normal movements and attract animals from elsewhere.

C For eight weeks, volunteers visited twice a week at dawn. They photographed the sand strips before smoothing them again and recorded rain, temperature and any signs of vehicle work nearby. A motion camera pointed at the entrance, but its images were checked against the footprints: a camera could miss an animal moving behind a stone. The same record sheet was used on both sides of the bridge. This made it possible to compare evidence, though it could not identify every individual animal.

Under the Old Bridge Passage B

D A problem appeared after heavy rain. Water covered one sand strip and washed away several nights of tracks. The team did not count that week as showing no animal use. Instead, it noted the missing evidence and placed the strip on slightly higher ground after consulting the bridge engineer. Another issue was that a dog walker left a gate open in the fence. A clearer sign and a self-closing catch reduced this problem, but the team recorded it because people as well as animals affected the trial.

E By the end of the study, tracks and camera images suggested that the passage was being used, especially by foxes. Road staff also reported fewer calls about animals near that section of road. However, the team could not prove that the fence alone caused the change: traffic levels and seasonal behaviour might also matter. Lina proposed keeping the passage clear and repeating the checks in another season. The project showed that an existing bridge can help wildlife when its design follows local animal behaviour, but it did not justify claiming that one crossing solves every road-risk problem. The road team also agreed to keep the approach clear after autumn storms.

Reading Homework 3

Book 3 Unit 1

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A-B**. Questions 6-10: **C-D**.

At Moorbridge, **(1)** _____ reported animals near the **(2)** _____ . Lina checked the existing **(3)** _____ , looked for **(4)** _____ and spoke to maintenance **(5)** _____ .

After heavy **(6)** _____ , the team recorded **(7)** _____ evidence and moved a sand **(8)** _____ . A dog walker left a **(9)** _____ open, so a self-closing **(10)** _____ was fitted.

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Guiding animals towards a passage
ii. Checking two evidence sources
iii. An immediate permanent change
iv. Identifying a crossing risk
v. Cautious local conclusions
vi. A solution for every location
vii. Responding to disruption

11. Paragraph A

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

12. Paragraph B

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

13. Paragraph C

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. Why did Lina inspect tracks before changing the passage?

- ☐ A. To estimate the cost of road repairs
- ☐ B. To prove the bridge had failed
- ☐ C. To learn whether animals were already using the area

17. Why was verge-cutting information relevant to the investigation?

- ☐ A. It determined the camera's battery life
- ☐ B. It could affect animal movement near the crossing
- ☐ C. It showed which bus company used the road

18. How was the fence intended to reduce risk?

- ☐ A. By stopping animals from reaching the stream
- ☐ B. By enclosing animals under the bridge
- ☐ C. By directing animals from the hedge towards the passage

19. Why did the team refuse to place food in the passage?

- ☐ A. It could attract animals from elsewhere and alter ordinary behaviour
- ☐ B. It might make footprints impossible to photograph
- ☐ C. It would prevent foxes using the stream bank

20. What was the purpose of smoothing the sand after a visit?

- ☐ A. To make the entrance more attractive to drivers
- ☐ B. To make later footprints easier to distinguish
- ☐ C. To hide tracks from other volunteers

Reading Homework 3

Book 3 Unit 1

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. Why did staff compare camera images with sand-strip evidence?

- ☐ A. Footprints could show the exact time of each visit
- ☐ B. Either method could miss some movement on its own
- ☐ C. The camera could identify every animal by name

22. Why was the flooded week not counted as zero use?

- ☐ A. The tracks had been washed away, so the evidence was missing
- ☐ B. Volunteers had chosen not to visit at dawn
- ☐ C. The passage had been closed for repairs

23. How did the team respond to the gate being left open?

- ☐ A. They removed the fence from both ends
- ☐ B. They added a clearer sign and a self-closing catch
- ☐ C. They asked dog walkers to feed the animals

24. Why did the report avoid naming the fence as the sole cause of change?

- ☐ A. Traffic and seasonal behaviour could also influence observations
- ☐ B. Only hedgehogs, not foxes, used the passage
- ☐ C. Road staff had stopped keeping records

25. Why repeat checks in another season?

- ☐ A. To replace camera evidence with bus reports
- ☐ B. To train animals to use a new entrance
- ☐ C. To see whether the pattern remained under different conditions

Speaking Homework 3

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "First,".
I will explain / First, / to sea turtles / the main threat

2. Start with "Second,".
for the community / Second, / I will describe / a possible solution

3. Start with "To summarize,".
To summarize, / people need to cooperate / this species / to protect

4. Start with "Although".
an important role / it plays / the animal is dangerous, / Although

5. Start with "The audience".
The audience / and practical advice / needs clear examples

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: You are helping a friend begin a talk for children. Choose explain or hide.

Friend: What should I say about the turtles first?

You: You could _____ why they need a safe beach.

7. Situation: Your friend has finished the main points of a wildlife talk. Choose interrupt or summarize.

Friend: How can I finish my talk clearly?

You: You could _____ the main ways people can help.

8. Situation: Your friend is preparing a talk for researchers. Choose guesses or evidence.

Friend: What should I include to support my claims?

You: Use clear facts and reliable _____.

9. Situation: A classmate wants listeners to take action. Choose advice or weather.

Friend: What could I add at the end?

You: You could give some practical _____.

10. Situation: Your friend thinks sharks have no value because some are dangerous. Choose role or price.

Friend: Why should we care about sharks?

You: They play an important _____ in ocean life.

Speaking Homework 3

Book 3 Unit 1

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Arrange the ideas for a short wildlife talk.

Opening: A quiet beach matters to these animals.

A	Sea turtles lay their eggs on beaches.
B	We can reduce this danger by taking our litter home.
C	Rubbish on those beaches can harm the turtles.

12. Arrange the ideas for a short wildlife talk.

Opening: Rangers can help with one serious threat.

A	To reduce that threat, trained guards patrol protected areas.
B	Poaching is a serious threat to rhinos.
C	Their patrols may help them notice illegal hunting.

13. Arrange the ideas for a short wildlife talk.

Opening: We could start by looking after our own river.

A	Pollution is making the water unsafe for those fish.
B	Our river is home to several fish species.
C	We could help reduce this pollution by organizing a clean-up.

14. Arrange the ideas for a short wildlife talk.

Opening: There is more to sharks than their dangerous reputation.

A	Protecting these food chains is one reason to care about sharks.
B	This feeding behaviour helps shape ocean food chains.
C	Many sharks feed on other sea animals.

15. Arrange the ideas for a short wildlife talk.

Opening: Small actions are easier when we work together.

A	Working together may make those actions more effective.
B	Animals need safe habitats and clean water.
C	To protect these things, local people can reduce pollution and report illegal hunting.

Speaking Homework 3

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Prepare a 4-5 sentence talk for children about protecting sea turtles. Include first and to summarize.

Model: First, sea turtles need clean beaches for their eggs. Plastic can harm young turtles. We should put rubbish in bins near the beach. To summarize, clean beaches can help turtles survive.

17. Give a 4-5 sentence community presentation about one threat to a local animal. Include a solution.

Model: First, the frogs in our pond are threatened by dirty water. Rubbish and chemicals damage their habitat. We could organize a monthly clean-up. To summarize, cleaner water may help the frogs survive.

18. Explain how you would change a wildlife talk for children and scientists.

Model: Children need simple examples, such as a turtle caught in plastic. Scientists need evidence about the number of turtles affected. Both audiences need a clear main message. I would ask each group to help in an appropriate way.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

19. Deliver a 4-5 sentence balanced statement about sharks. Use although.

Model: Although sharks can be dangerous, they play an important role in the ocean. They eat weak or dead animals. This helps keep food chains healthy. People should protect shark species that are threatened.

20. Make a 4-5 sentence closing appeal about stopping poaching.

Model: To summarize, poaching threatens many endangered animals. Guards need support to protect them. Governments should ban illegal wildlife trade. Communities can report suspicious activity. Together, these actions may save species.

Speaking Homework 3

Book 3 Unit 1

Questions 21-22 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: species / suffer / habitat

21. Imagine the teacher is speaking to children. Give a simple opening for her talk.

Words: depend on / support / endangered

22. Suggest a short ending for the children's wildlife talk.

Speaking Homework 3

Book 3 Unit 1

Questions 23-25 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: habitat / species / threat

23. Imagine the scientist and ranger are preparing a talk. Say what evidence they could use.

Words: habitat / protect / support

24. Explain how the ranger could adapt the same message for local families.

Words: depend on / damage / support

25. Give a 3-4 sentence closing appeal based on this research scene.

Writing Homework 3

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "Whale sharks and tiger sharks".

in several ways / are similar / Whale sharks and tiger sharks

2. Start with "In contrast,".

are very different / In contrast, / their diets and behaviour

3. Start with "One important difference".

is / their conservation status / One important difference

4. Start with "For example,".

is endangered / the whale shark / For example,

5. Start with "Overall,".

both species / play an important role / Overall, / in the ocean

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose topic or supporting.

The first sentence of a paragraph is often the _____ sentence.

7. Choose habitat or contrast.

Use whereas to show a _____ between two facts.

8. Choose first or overall.

_____ , both sharks play an important role in the ocean.

9. Choose status or species.

Endangered is a conservation _____.

10. Choose supporting or dangerous.

Examples give _____ details for a topic sentence.

Writing Homework 3

Book 3 Unit 1

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a comparison paragraph with a topic sentence.

A Tiger sharks are smaller and eat larger sea creatures.
B Whale sharks are larger but eat tiny animals.
C The two shark species are different in size and diet.

☐ C-B-A ☐ A-C-B ☐ A-B-C

12. Order this comparison of two reserve groups.

A The first group has too little nesting space.
B Two animal groups in this reserve face different problems.
C In contrast, the second group has enough space but too little food.

☐ B-A-C ☐ B-C-A ☐ A-C-B

13. Order a paragraph about shared features.

A They both have fins and a divided tail.
B However, their behaviour towards humans is different.
C Both shark species live in major oceans.

☐ B-A-C ☐ A-C-B ☐ C-A-B

14. Order an introduction-to-conclusion sequence.

A Whale sharks and tiger sharks have several similarities and differences.
B Overall, both species are important parts of ocean life.
C Their diets, size and behaviour show clear contrasts.

☐ A-C-B ☐ A-B-C ☐ C-A-B

15. Order a paragraph with an example.

A The whale shark needs stronger protection.
B People should reduce threats to its ocean habitat.
C For example, it is already an endangered species.

☐ B-C-A ☐ A-C-B ☐ C-A-B

Writing Homework 3

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Write a 4-5 sentence comparison paragraph about the sharks' size and diet. Begin with a topic sentence.

Model: The two shark species are different in both size and diet. Whale sharks are much larger than tiger sharks. However, whale sharks eat tiny animals such as plankton. Tiger sharks are smaller, whereas they eat tuna, dolphins and turtles.

17. Reserve notes: Group A has few nesting sites and enough food; Group B has many sites but little food. Compare their needs in one paragraph.

Model: Two groups in this reserve need different kinds of support. Group A has enough shelter but little food. In contrast, Group B has plenty of food but few safe shelters. The reserve should match its help to each group’s needs.

18. Write one self-contained paragraph comparing whale sharks and tiger sharks. Use the supplied facts: both have fins and live in oceans; whale sharks filter small food from water; tiger sharks hunt larger animals.

Model: Whale sharks and tiger sharks have both shared and different features. Both animals have fins and live in oceans. Whale sharks take small food from water by filtering it. Tiger sharks, however, hunt larger animals.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Write a 4-5 sentence conclusion that explains why both sharks matter.

Model: Overall, whale sharks and tiger sharks are very different animals. However, both play an important role in ocean ecosystems. People need to protect endangered whale sharks. They should also avoid unnecessary harm to tiger sharks.

20. Reserve notes: red squirrel group uses woodland food; grey squirrel group also finds food near buildings; both need nesting places. Compare the groups in one paragraph.

Model: The two groups in this reserve share a need for safe nesting places. One group finds food only in woodland. The other also finds food near buildings. Their different food sources may affect where they can live.

Writing Homework 3

Book 3 Unit 1

Questions 21-22 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: species / major / endangered

21. Compare the printed photograph and small model as ways to study an animal. Use a clear topic sentence.

Words: provide / endangered / protect

22. Write a 3-4 sentence paragraph explaining why conservation research matters.

Writing Homework 3

Book 3 Unit 1

Questions 23-25 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: natural / affect / native

23. Compare watching wildlife with binoculars and using a camera trap. Describe a possible advantage of each.

Words: affect / provide / damage

24. Write a 3-4 sentence paragraph linking this research scene to squirrel protection.

Words: protect / natural / survive

25. Write a 3-4 sentence conclusion about protecting woodland species.
