Listening Homework 2

Book 3 Unit 3

Questions 1-5 Sentence completion

Write **ONE WORD AND/OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

1. [3.3-S02] **Buses are the most _____ option for reducing traffic.**
2. [3.3-S04] **Older signals rely on elapsed time rather than current traffic: their cycles are measured in _____ .**
3. [3.4-S01] **Mark supports the new signals even though installing them citywide is _____ .**
4. [3.4-S02] **The drone sends camera information so _____ need not visit unless something is wrong.**
5. [3.4-S03] **According to Mark, people at the wheel can become less _____ than they normally are.**

Listening Homework 2

Book 3 Unit 3

Questions 6-10 Sentence completion

Write **ONE WORD AND/OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

6. [3.6-S02] **Drivers put cyclists at risk when they use cycle _____ to overtake cars.**

7. [3.6-S04] **The speaker's negative cycling experience happened during a _____ .**

8. [3.7-S01] **The proposal is to create cycle lanes on _____ streets that still lack them.**

9. [3.7-S02] **Indoor parking would keep bicycles safe and _____ while people are working.**

10. [3.7-S03] **People living far away could cycle only _____ of the journey, using public transport for the remainder.**

Listening Homework 2

Book 3 Unit 3

Questions 11-15 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

11. [3.3-S01] **Why does the host cite the urban-population forecast?**

- ☐ A. To warn that traffic pressure could grow.
- ☐ B. To compare urban and rural transport costs.
- ☐ C. To show that traffic is already easing.

12. [3.3-S02] **What does Mark identify as the main cause of severe city traffic?**

- ☐ A. Most city roads have been closed
- ☐ B. Private cars often carry only one or two people
- ☐ C. Buses carry too few passengers

13. [3.3-S03] **What can a badly parked delivery vehicle do?**

- ☐ A. Create a new bus route
- ☐ B. Hold up traffic behind it
- ☐ C. Make traffic lights change faster

14. [3.3-S04] **How can a green-light driver still cause delays?**

- ☐ A. By stopping before the next light turns red.
- ☐ B. By taking a longer road around the queue.
- ☐ C. By entering a queue and blocking the junction.

15. [3.4-S01] **What information can modern traffic signals send to a control centre?**

- ☐ A. Traffic speed and crashes
- ☐ B. Drivers' home addresses
- ☐ C. The price of public transport

Listening Homework 2

Book 3 Unit 3

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

16. [3.4-S02] **How do parcel drones support the traffic-reduction idea?**

- ☐ A. They remove some trips that would require delivery vans.
- ☐ B. They let vans carry larger loads on each journey.
- ☐ C. They provide drivers with quieter delivery routes.

17. [3.6-S02] **Why do some residents avoid cycling to work?**

- ☐ A. They dislike working in offices
- ☐ B. They do not own any exercise clothes
- ☐ C. They consider rush-hour traffic unsafe

18. [3.6-S04] **Why might a dry morning not persuade someone to cycle?**

- ☐ A. Cyclists cannot use public transport on their return journey.
- ☐ B. Conditions may be worse when it is time to return home.
- ☐ C. Wet weather prevents bicycles from entering the workplace.

19. [3.7-S03] **How does the speaker frame her proposals at the end?**

- ☐ A. As a starting point for discussion.
- ☐ B. As immediate rules for individual drivers.
- ☐ C. As changes the city has already completed.

20. [3.7-S03] **How could cycle racks on buses help commuters?**

- ☐ A. They would make bicycles faster
- ☐ B. They would replace all cycle lanes
- ☐ C. They could combine cycling with public transport

Listening Homework 2

Book 3 Unit 3

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

21. [3.3-S04] **Which TWO problems can old traffic signals cause?**

- ☐ A. They make buses carry too many people
- ☐ B. They stop delivery drivers parking
- ☐ C. They make all roads wider
- ☐ D. Drivers may enter a queue that is not moving
- ☐ E. Vehicles may block a busy junction

22. [3.4-S02] **Which TWO possible uses of drones are discussed?**

- ☐ A. Transporting large work vans
- ☐ B. Changing traffic lights manually
- ☐ C. Inspecting electricity lines
- ☐ D. Building new roads
- ☐ E. Delivering small parcels

23. [3.4-S03] **Which TWO behaviours does Mark encourage drivers to consider?**

- ☐ A. Avoid driving when possible
- ☐ B. Park across side streets
- ☐ C. Drive through cycle lanes
- ☐ D. Leave space for turning vehicles
- ☐ E. Refuse to slow down

Listening Homework 2

Book 3 Unit 3

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

24. [3.6-S04] **Which TWO practical issues can make cycling inconvenient?**

- ☐ A. Too much space in cycle lanes
- ☐ B. Public transport being free
- ☐ C. Too many bike-parking garages
- ☐ D. Riding home in bad weather
- ☐ E. A long distance to work

25. [3.7-S01] **Which TWO measures are proposed to improve cyclist safety?**

- ☐ A. Fine drivers who use cycle lanes illegally
- ☐ B. Create wider cycle lanes
- ☐ C. Require cyclists to drive cars
- ☐ D. Close all parking garages
- ☐ E. Remove police officers from roads

Passage A

A In the city of Greyford, many students travelled by car even though a bus stopped near their college. The transport team first assumed that students disliked public transport. A short survey suggested a more practical explanation. Students said that the bus sometimes arrived early and sometimes very late. Missing one could mean waiting half an hour for the next. They wanted a journey they could plan, not simply a lower ticket price.

B The team checked records from the buses and observed the route during the morning rush hour. One junction caused long delays because buses waited with cars turning towards a shopping centre. Drivers also lost time at a busy stop where people had to buy tickets from them. The investigation helped the team separate different causes of delay. A faster bus on one part of the route would not solve a queue at the next stop.

C A three-month trial introduced several changes. Buses received extra time to pass through the busy junction, and students could buy a weekly ticket at the college office. The bus company also agreed that drivers would not leave an important stop before the published time. These changes were explained on a simple route map. A staff member visited the college to show students how the new arrangement worked and answer questions before the trial began.

D Getting to a stop mattered too. Students living farther away said they could cycle to the route, but worried about leaving their bicycles. The college installed covered bicycle parking near its busiest bus stop. It did not ask everyone to make the same journey. Some students still needed a car because they lived in places without a useful bus connection. The project aimed to make another choice practical for more people, not to criticize every driver.

Passage A

E At the end of the trial, fewer buses arrived very late, and more students reported using the service regularly. The team also checked total journey time, including the walk or cycle to the stop and any waiting. A quicker ride did not necessarily mean a quicker trip from home. Some students still found the evening service inconvenient. The team recorded this problem instead of using the morning results to claim that the whole timetable now worked well.

F The next plan kept the successful morning changes and tested one later bus in the evening. The college continued collecting comments from students who used the service and those who did not. Their reasons could reveal barriers that passenger numbers alone would miss. Greyford's experience showed why a transport project should begin with people's actual journeys. Reliable times, clear information and a useful connection can matter as much as the speed of the vehicle itself.

Reading Homework 2

Book 3 Unit 3

Questions 1-5 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. The survey supported the view that ticket price was the students' only concern.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. The survey was conducted by students in their final year.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. Buying tickets from drivers contributed to delays.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. A faster section of the route would necessarily remove the queue at the next stop.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. During the trial, drivers could leave the important stop before its published departure time.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 6-10 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

6. The college sold weekly tickets during the trial.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. The project required every student to stop travelling by car.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

8. The covered bicycle parking had space for fifty bicycles.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. The team found that evening travel still caused difficulties for some students.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. Feedback was collected from non-users as well as users of the bus.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 11-15 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

11. The plan helps students combine two forms of transport.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

12. People who do not use the service can still provide useful evidence.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

13. Some students still require cars because their homes lack a useful bus connection.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

14. The new arrangement is explained before it starts.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

15. Unpredictable arrival times discourage potential passengers.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

Questions 16-20 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

16. The next trial adds one later bus in the evening while retaining successful morning changes.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

17. A payment process contributes to a delay.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

18. An apparent improvement may not shorten the complete journey.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

19. A survey changes an initial assumption.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

20. Two separate causes of delay are identified.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

21. Which TWO links between problems and trial measures are supported?

- ☐ A. Lower prices were the only measure introduced.
- ☐ B. Buying tickets at college addressed time lost selling them on the bus.
- ☐ C. The departure agreement addressed buses leaving before passengers expected.
- ☐ D. Covered parking removed delays at the shopping-centre junction.
- ☐ E. A new survey replaced every bus journey with a bicycle trip.

22. Which TWO ideas explain why the team investigated more than bus speed?

- ☐ A. Separate queues could delay the journey even after a faster section.
- ☐ B. Passengers needed reliable times they could plan around.
- ☐ C. Students asked for the fastest vehicles regardless of arrival times.
- ☐ D. Improving speed at one point was guaranteed to remove all later delays.
- ☐ E. The survey showed no practical barriers to bus use.

23. Which TWO conclusions follow from the bicycle-parking decision?

- ☐ A. A useful alternative could be offered without assuming everyone could abandon a car.
- ☐ B. Every student had a suitable bus route from home.
- ☐ C. The team treated all car users as responsible for the delays.
- ☐ D. The parking replaced the need for a bus timetable.
- ☐ E. The connection to the bus stop formed part of the transport problem.

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

24. Which TWO measures would help judge whether the complete trip improved?

- ☐ A. Recording the bus ride alone and omitting all connections.
- ☐ B. Assuming every shorter bus ride meant a shorter home-to-college trip.
- ☐ C. Using morning results to conclude that every evening journey improved.
- ☐ D. Including the time spent walking or cycling to the stop.
- ☐ E. Including waiting time as well as time on the bus.

25. Which TWO features of the next plan respond to limits found in the trial?

- ☐ A. Withdrawing the successful morning changes.
- ☐ B. Claiming that passenger numbers revealed every barrier.
- ☐ C. Testing a later bus to investigate the evening problem.
- ☐ D. Seeking non-users' reasons to uncover barriers missed by passenger totals.
- ☐ E. Ending all feedback once morning lateness fell.

Speaking Homework 2

Book 3 Unit 3

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "The new bus lane".
more comfortable / The new bus lane / the journey / has made

2. Start with "This is".
near the station / street / This is / the least noisy

3. Start with "Drivers".
this morning / Drivers / can avoid / the flooded road

4. Start with "The council".
traffic / The council / outside the hospital / measured

5. Start with "A clear map".
helps passengers / figure out / the route / A clear map

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: There are too many cars to move quickly. Choose heavy or empty.

Friend: Why is the bus so slow today?

You: The traffic is very _____.

7. Situation: A new route is more direct. Choose more direct or most direct.

Friend: How is the new route different?

You: It is _____ than the old route.

8. Situation: A station is the most convenient option. Choose more convenient or most convenient.

Friend: Which station is best for the group?

You: It is the _____ station.

9. Situation: A planner finds the answer. Choose fixed or figure out.

Friend: What can the planner do?

You: She can _____ the problem.

10. Situation: A signal changes traffic movement. Choose influence or trouble.

Friend: What can signals do to traffic?

You: They can _____ how traffic moves.

Speaking Homework 2

Book 3 Unit 3

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Explain a new route after road repairs.

Opening: The roadworks changed my usual journey.

A	That route is longer but less crowded.
B	Passengers can use the bus route behind the park.
C	The main road is closed this week.

12. Recommend a stop for an older passenger.

Opening: My neighbour needs a comfortable way to travel.

A	I recommend meeting there before the train arrives.
B	The station lift is near platform two.
C	It is more convenient than the stairs.

13. Explain what your traffic survey showed.

Opening: Our class collected information near the library.

A	These results could help the council decide when a crossing officer is needed.
B	The second count was higher than the first.
C	We counted cars in two ten-minute periods, one at three and one at four.

14. Explain a weather-related transport problem.

Opening: Rain changed the journey home yesterday.

A	A warning sign could help people avoid the flooded area.
B	Cyclists used the road instead.
C	Water covered part of the cycle path.

15. Compare two routes to a hospital.

Opening: A visitor asked for the best route to the hospital.

A	However, that faster option leaves the visitor farther from the hospital entrance.
B	The best choice therefore depends on how far the visitor can walk.
C	The underground is faster than the bus at rush hour.

Speaking Homework 2

Book 3 Unit 3

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

16. Describe a changed journey after roadworks.

Model: The main road near my home is closed this week. I take a bus behind the park instead. The route is longer, but it has less traffic. I can still arrive at school on time.

17. Recommend the most convenient option for a visitor.

Model: For a visitor with a suitcase, the lift is the most convenient choice. It is beside platform two. The stairs are faster for some people, but they are not easy with bags. I would meet the visitor by the lift.

18. Report a short transport observation.

Model: Our class counted traffic outside the library for ten minutes at three and again at four. More cars passed during the second count. The road was also noisier then. The council could use these observations when planning crossings.

Speaking Homework 2

Book 3 Unit 3

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

19. Explain a weather-related travel solution.

Model: Heavy rain covered part of the cycle path yesterday. My brother used the bus instead. It was less direct, but it kept him away from the flooded road. A warning sign could help other cyclists choose early.

20. Compare two routes using more than one criterion.

Model: The underground is faster than the bus at rush hour. However, the bus stop is closer to our house. The bus is also cheaper for my family. We choose the underground only when we are late.

Speaking Homework 2

Book 3 Unit 3

Questions 21-22 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: avoid / safety / convenient

21. Describe the walking area and the cycle lane. Compare their position with the bus lane.

Words: avoid / safety / convenient

22. Suggest how this layout could help a parent walking with a child. Give a reason.

Speaking Homework 2

Book 3 Unit 3

Questions 23-25 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: control / safety / management

23. Describe the traffic officer and the people waiting near the junction.

Words: control / management / serious

24. Imagine the lights at this junction have stopped working. Explain how the officer could help.

Words: control / management / serious

25. Imagine a visitor is unsure where to cross here. Suggest a practical first step and give a reason.

Writing Homework 2

Book 3 Unit 3

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "The ferry".

the harbour / at six / The ferry / leaves from

2. Start with "Passengers".

change trains / at Central Station / each morning / Passengers

3. Start with "The guide".

a direct bus / The guide / to the stadium / recommended

4. Start with "A map".

A map / to the clinic / shows / the quickest route

5. Start with "We can".

the busy tunnel / after work / We can / avoid

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose change or move, before trains.

We _____ trains at Central Station.

7. Choose straight or direct, before bus.

Take the _____ bus to the stadium.

8. Choose recommendation or recommend, for advice.

I _____ the ferry.

9. Choose avoid or leave, before traffic.

We can _____ the traffic by using the bridge.

10. Choose quickest or quicker, after the.

This is the _____ route.

Writing Homework 2

Book 3 Unit 3

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Choose the coherent order for the transport situation.

A The assistant directs her to a level entrance beside the pier.
B A visitor arrives at the harbour with a large suitcase.
C She asks where to catch the ferry with that suitcase.

☐ B-A-C ☐ B-C-A ☐ C-B-A

12. Choose the coherent order for the transport situation.

A Passengers affected by this cancellation can change buses at the library.
B A sign at the library shows where to catch the connecting service.
C The direct bus to the stadium is cancelled today.

☐ A-B-C ☐ B-A-C ☐ C-A-B

13. Choose the coherent order for the transport situation.

A They then follow the new signs to the correct platform.
B The train now stops at a different platform.
C This change is announced before passengers reach the stairs.

☐ C-B-A ☐ B-C-A ☐ A-B-C

14. Choose the coherent order for the transport situation.

A A temporary route around those works passes the park.
B Workers have closed the shortest route to the clinic.
C The clinic has put that route on its appointment letters.

☐ A-B-C ☐ B-A-C ☐ B-C-A

15. Choose the coherent order for the transport situation.

A To avoid it, she takes a ferry across the river.
B A commuter wants to avoid the tunnel at rush hour.
C After leaving the ferry, she walks to her office.

☐ C-A-B ☐ A-B-C ☐ B-A-C

Writing Homework 2

Book 3 Unit 3

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

16. Imagine a route has changed. Explain how a visitor can still reach a museum. Use change buses and get off.

Model: The direct bus to the pool is not running today. Visitors can catch the number 4 bus to the library. They should change buses there and get off beside the pool. This route takes longer but still reaches the entrance.

17. Recommend a journey for a visitor with a suitcase. Include a boarding point and a reason.

Model: I suggest the ferry for a visitor staying near the harbour. It leaves from a pier beside the hotel. The level entrance is useful with a suitcase. The visitor can get off near the city museum.

18. Imagine a station sign confuses visitors. Describe the difficulty and suggest clearer information.

Model: The sign near the platform only shows a number. Some visitors do not know which destination it serves. I suggest adding the destination below the number. This would help them check the service before boarding.

Writing Homework 2

Book 3 Unit 3

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

19. Compare two routes to a place you choose. Include a transfer and explain which route you prefer.

Model: The direct bus to the sports centre takes forty minutes. The train is quicker, but passengers must change trains once. Both stop near the sports centre. I prefer the bus when I have heavy equipment.

20. Imagine a bridge is closed. Describe an alternative journey using avoid and connect.

Model: The main bridge is closed for repairs this week. Drivers can avoid it by using the eastern road. That road connects the village to a second bridge. Clear signs would help visitors follow the longer route.

Writing Homework 2

Book 3 Unit 3

Questions 21-22 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: cycle / traffic congestion / vehicle

21. Describe the cyclists and their route. Include one detail about the other traffic.

Words: cycle / traffic congestion / vehicle

22. Imagine a commuter chooses this route instead of driving. Explain one possible benefit and one limitation.

Writing Homework 2

Book 3 Unit 3

Questions 23-25 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: public transport / access / destination

23. Describe the passengers getting off the bus and their position near the building.

Words: public transport / access / destination

24. Imagine a visitor needs to reach the building behind the bus. Explain why this stop could be convenient.

Words: public transport / access / destination

25. Imagine the bus serves a hospital. Suggest information that could help a first-time visitor after getting off.
