Listening Homework 3

Book 3 Unit 6

Questions 1-5 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. [6.1-L01] **The museum tour challenges the idea that the Middle Ages lacked scientific achievement.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. [6.1-L01] **The first fountain pen was invented in Italy.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. [6.1-L01] **The first glasses cost a worker one month's wages.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. [6.1-L01] **Early glasses were intended to help people read with poor vision.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. [6.1-L01] **The fountain pen prevented black ink from marking users while writing.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 3 Unit 6

Questions 6-10 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

6. [6.1-L02] **Al-Jazari lived in twelfth-century Turkey.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. [6.1-L02] **A model clock in the exhibition costs fifty pounds.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

8. [6.1-L02] **The crankshaft was first used in car engines.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. [6.1-L02] **Water and weights operate the mechanical clocks.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. [6.1-L02] **Al-Jazari's book included diagrams as well as instructions.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 3 Unit 6

Questions 11-15 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

11. [6.1-L03] **Chinese scientists were trying to make a life-extending powder.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

12. [6.1-L03] **The first written gunpowder instructions date from the ninth century.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

13. [6.1-L03] **The Chinese scientists achieved their original goal of making people live forever.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

14. [6.1-L03] **Gunpowder changed the outcome of a battle fought in 1346.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

15. [6.1-L03] **The guide attributes the first written gunpowder instructions to three named writers.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Listening Homework 3

Book 3 Unit 6

Questions 16-20 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

16. A historical consequence of gunpowder beyond the museum

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

17. The century in which written gunpowder instructions appeared

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

18. A book describing one hundred machines

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

19. A mechanism that moves machines in a straight line

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

20. A writing method that caused stained hands and clothing

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

Listening Homework 3

Book 3 Unit 6

Questions 21-25 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

21. A room containing a model of the fountain pen

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

22. An earlier agricultural use of the crankshaft

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

23. A label for the historical period that the exhibition questions

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

24. An unintended outcome of the search for immortality

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

25. An uncertain fact about the first glasses

☐ 6.1-L01 ☐ 6.1-L02 ☐ 6.1-L03

Explaining a Clock Without Taking It Apart Passage B

A The Milltown Museum owned a nineteenth-century mechanical clock whose hands no longer moved reliably. A local school asked whether students could help explain it for a science-and-technology display. The curator agreed, but set one condition: the historic movement could be observed by a conservator but not dismantled by a class. Its brass gears, springs and worn teeth were evidence of how the object had been made and used. The project therefore began with photographs, measurements and old repair notes rather than with an attempt to make the original clock run perfectly.

B A clockmaker visited the school and explained how a large gear could turn a smaller one at a different speed. Students counted visible teeth in photographs and made cardboard circles to test the relationship. They learned that a gear train did not simply make parts move faster; the direction and size of each gear affected the result. The cardboard version was useful for learning, but it bent easily and could not show the weight or friction present in the historic mechanism.

C The class then designed a replaceable demonstration model using plastic gears on a wooden board. Unlike the museum clock, this model could be taken apart, rearranged and repaired after a mistake. One group placed two gears too close together, causing them to jam. Another made a hand that completed a turn too quickly because its gear ratio was wrong. Students did not hide these errors. They recorded the arrangement, changed one feature at a time and tested whether the minute hand now moved as intended.

Explaining a Clock Without Taking It Apart Passage B

D Testing showed a further issue: even a correct-looking model could lose time if an axle was not straight. Students compared the model with a simple timer for ten minutes and wrote down the difference between expected and actual movement. They repeated the test after adjusting the axle, but did not announce that the model was exact. The timer itself did not explain every small variation, and the lesson separated a useful demonstration of a principle from a precise copy of the old clock. They also marked each test with the arrangement of gears used, so another group could repeat a result rather than rely on a memory of what had been changed. This made the model a clearer investigation tool as well as a public display.

E At a public afternoon, visitors turned a handle on the model and watched coloured arrows show which gear moved next. Several younger visitors first thought the largest gear must always move fastest. Students used the model to ask them to predict a result before turning the handle. Feedback suggested that people understood the sequence better when they could move one gear themselves, but some labels were too technical. The class rewrote those labels and left the historic clock protected in its case. Their display showed how engineering explanation can be made accessible without risking an original object.

Reading Homework 3

Book 3 Unit 6

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A-B**. Questions 6-10: **C-D**.

At Milltown, the historic clock could be observed but not **(1)** _____ . Students used photographs, measurements and repair **(2)** _____ . A clockmaker explained that gear **(3)** _____ and direction affected movement, while cardboard could not show historic **(4)** _____ or **(5)** _____ .

The replaceable model could **(6)** _____ or use a wrong gear **(7)** _____ . Students tested it with a **(8)** _____ and adjusted an **(9)** _____ . They compared **(10)** _____ movement with actual movement.

Reading Homework 3

Book 3 Unit 6

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Measuring error instead of claiming exactness

ii. Assuming large gears are always fastest

iii. Making the original clock perfect

iv. Protecting evidence in the original clock

v. Using simple materials to learn gear relationships

vi. Improving a public explanation

vii. Building a model that can be changed

11. Paragraph A

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

12. Paragraph B

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

13. Paragraph C

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. Why could students not dismantle the historic movement?

- ☐ A. The clock had no gears
- ☐ B. They had no photographs
- ☐ C. It had to be protected as evidence

17. What did the project use first?

- ☐ A. A new plastic model
- ☐ B. A public handle
- ☐ C. Photographs, measurements and repair notes

18. What did students count in photographs?

- ☐ A. Visitor tickets
- ☐ B. Visible gear teeth
- ☐ C. Clock labels

19. Why was cardboard limited?

- ☐ A. It could not be cut
- ☐ B. It bent and could not show weight or friction
- ☐ C. It made gears too fast

20. What caused one group’s gears to jam?

- ☐ A. The timer was too short
- ☐ B. The clock case was locked
- ☐ C. They were placed too close together

Reading Homework 3

Book 3 Unit 6

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. Why did one hand turn too quickly?

- ☐ A. Its gear ratio was wrong
- ☐ B. It was made of brass
- ☐ C. A visitor moved it

22. What could make a correct-looking model lose time?

- ☐ A. A large gear
- ☐ B. An axle that was not straight
- ☐ C. A wooden board

23. How long was the model compared with a timer?

- ☐ A. Ten minutes
- ☐ B. One hour
- ☐ C. One day

24. What did coloured arrows show?

- ☐ A. The age of the clock
- ☐ B. The cost of repairs
- ☐ C. Which gear moved next

25. What did feedback lead students to change?

- ☐ A. The protected historic clock
- ☐ B. Technical labels
- ☐ C. The gear material in the original

Speaking Homework 3

Book 3 Unit 6

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "First,".
introduce / First, / I will / the invention

2. Start with "This device".
This device / allows / to work together / users

3. Start with "The stand".
is useful for / holding / The stand / a tablet

4. Start with "The label".
to identify / each part / helps people / The label

5. Start with "The new design".
makes it possible / to fold / The new design / the frame

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: Preview the first part of a short talk. Choose began or begin.

Friend: **How will you start?**

You: I will _____ by describing the device.

7. Situation: Explain the purpose with useful for. Choose holding or hold.

Friend: **What does this stand do?**

You: It is useful for _____ a tablet.

8. Situation: Explain a benefit with allows. Choose for or to.

Friend: **How does the app help a group?**

You: It allows users _____ share notes.

9. Situation: Introduce the next part of the explanation. Choose then or because.

Friend: **What comes after the description?**

You: _____, I will explain how it is used.

10. Situation: Explain a practical benefit. Choose easy or easily.

Friend: **Why is the new label useful?**

You: It makes it _____ to identify the part.

Speaking Homework 3

Book 3 Unit 6

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Introduce an object and explain its use.

Opening: Let me show you a small invention from our classroom.

A	That angle allows the user to read without holding the tablet.
B	It holds the screen at an angle on a desk.
C	This is a folding tablet stand.

12. Explain a reminder tool.

Opening: I chose this object because I use it while studying.

A	It helps me return to that line quickly.
B	The marker sticks beside an important line.
C	It is a small removable page marker.

13. Explain a change to a container.

Opening: One small part makes a difference to this design.

A	Through that window, users can see the contents.
B	They can therefore check what is inside without opening it.
C	The container has a transparent window.

14. Explain an app function.

Opening: This idea began with a problem in our group work.

A	Each task on the list has a name beside it.
B	The app keeps a shared list of tasks.
C	Those names help group members see who is responsible.

15. Explain a portable design.

Opening: Here is how we made the object easier to carry.

A	The folded frame fits inside a school bag.
B	That hinge allows the two sides to fold together.
C	The frame has a hinge in the middle.

Speaking Homework 3

Book 3 Unit 6

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Give a short introduction to a familiar invention. Preview one point, describe it and explain a use.

Model: I would like to introduce a folding stand. First, I will explain its useful shape. The stand holds a tablet above the desk. It allows users to read while keeping their hands free.

17. Explain how one part of an invented device works and why it matters.

Model: Our box has a small window in its lid. The window is made from clear plastic. It allows users to see the contents without opening the box. This is useful when several similar boxes are stored together.

18. Describe a simple classroom invention in a logical order. Include materials, use and benefit.

Model: Our parts tray is made from small reused boxes. Each box is fixed into a larger base. The tray is used to sort pieces during a project. It helps a group find the right part without searching through a pile.

Speaking Homework 3

Book 3 Unit 6

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

19. Introduce an app and explain two related uses. Use allows and useful for.

Model: Our reading app keeps a list of borrowed books. It allows users to record return dates. It is also useful for writing brief reading notes. These two functions help readers organize their library visits.

20. Explain what would be harder without a familiar invention. Give a concrete example.

Model: Without a zip, this bag would be harder to close quickly. The zip joins its two sides in one movement. For example, I can close it before getting on a bus. This helps keep the contents together during the journey.

Speaking Homework 3

Book 3 Unit 6

Questions 21-22 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: device / allow / discovery

21. Introduce the magnifying glass to a class. Preview two things you will explain: its use and its benefit.

Words: diagram / make a comparison / discovery

22. Explain how the student could use the leaf and the diagram to make a comparison.

Speaking Homework 3

Book 3 Unit 6

Questions 23-25 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: device / allow / technology

23. Introduce the museum display to a new visitor. Say what you will show and why it is useful.

Words: make a comparison / user / device

24. Imagine you are guiding the child. Explain how to explore the display in a clear order.

Words: diagram / make improvements / make a difference

25. Suggest one addition that could help visitors understand the gears. Introduce your idea and explain its benefit.

Writing Homework 3

Book 3 Unit 6

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "A device".

is / easy to store / that folds flat / A device

2. Start with "The designer".

The designer / at our school / who made this model / works

3. Start with "The main advantage".

is / of the stand / its simple shape / The main advantage

4. Start with "The problem".

its small text / The problem / is / with this app

5. Start with "This prototype,".

the basic idea / which is made from card, / shows / This prototype,

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose who or which.

The student _____ designed the handle tested it yesterday.

7. Choose where or that.

A tool _____ is easy to hold may suit more users.

8. Choose with or of.

One advantage _____ the design is its low weight.

9. Choose with or of.

The main problem _____ the first version is its narrow base.

10. Choose that or which for the extra information between commas.

Our prototype, _____ is made from card, folds flat.

Writing Homework 3

Book 3 Unit 6

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order an introduction to a folding stand.

A	Imagine carrying a large stand in a small bag.
B	This design offers useful portability, although its joints need careful testing.
C	A folding stand has joints that let its parts move together.

☐ A-C-B ☐ C-B-A ☐ B-C-A

12. Order a description and advantage.

A	One advantage of this arrangement is that users can find items quickly.
B	Its separate sections keep similar tools together.
C	The group designed a box that separates small tools.

☐ B-A-C ☐ C-B-A ☐ A-B-C

13. Order an introduction to an app.

A	A shared app can display tasks that belong to different group members.
B	Keeping track of many classroom tasks can be difficult.
C	It may improve organization, but the information must be kept up to date.

☐ A-C-B ☐ B-C-A ☐ B-A-C

14. Order a limitation and implication.

A	The designer should therefore consider users who need a more obvious switch.
B	The new lamp uses a touch control.
C	That control may be difficult to find without looking closely.

☐ A-B-C ☐ C-B-A ☐ B-C-A

15. Order an introduction to a prototype.

A	Small changes can make familiar objects easier to use.
B	The pocket offers quick access, although it must also keep the card secure.
C	This bag has a pocket that holds a travel card near the handle.

☐ C-A-B ☐ A-C-B ☐ B-A-C

Writing Homework 3

Book 3 Unit 6

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Introduce an invented desk organizer. Start with a situation, describe it using a relative clause, and state your view.

Model: Imagine finding a cable in a crowded drawer. A cable holder is a device that keeps cables in separate slots. It can sit beside a desk. This simple design may save searching time, although it needs space near the user.

17. Introduce an app with an advantage and a limitation. Use a relative clause.

Model: A reading app can bring several tasks together. It is a tool that records borrowed books and return dates. One advantage of the app is that information stays in one place. However, users must remember to update their records.

18. Introduce a redesigned object. Include extra information with which and a clear view.

Model: Everyday bags are not equally easy to organize. This bag, which has small inner pockets, separates different items. Users can keep keys away from larger objects. I think the design is useful, although extra pockets may add weight.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Introduce an invention through a problem and benefit. Use advantage of or problem with.

Model: A page can be difficult to hold open while taking notes. A simple clip that grips the page may solve this problem. The main advantage of the clip is that it leaves both hands free. However, it should not damage the paper.

20. Write a balanced opening paragraph about a classroom prototype. Define it and identify a point to test.

Model: A portable model can make explanations more concrete. Our prototype is a frame that folds for storage. Its low weight is useful for moving between rooms. The main problem with the design is whether the hinges will last.

Writing Homework 3

Book 3 Unit 6

Questions 21-22 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: appearance / personal / movement

21. Introduce the computer mouse in a short paragraph. Use a relative clause to connect its shape with its use.

Words: disorganized / appearance / essential

22. Introduce the cable holder as a solution to a desk problem. Include a relative clause and its possible benefit.

Writing Homework 3

Book 3 Unit 6

Questions 23-25 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: personal / conditions / essential

23. Imagine the small box is a medicine reminder. Introduce it and its purpose using a relative clause.

Words: personal / essential / rethink

24. Imagine you are introducing this reminder to a new user. Explain the role of the person who shows how it works.

Words: appearance / personal / rethink

25. Introduce an improvement to the reminder. Use a relative clause and explain why the change could help.
