Listening Homework 3

Book 2 Unit 4

Questions 1-7 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. [4.4-L01] **The reporter says the rainforests now receive less rain.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. [4.4-L01] **The reporter says all governments have identical forest budgets.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. [4.4-L01] **Governments say they will allow people to continue damaging forests.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. [4.4-L01] **The reporter describes changes to animals and the plants they need.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. [4.4-L01] **Scientists believe government work is happening quickly enough.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

6. [4.4-L01] **The reporter says governments pay people to plant new trees.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. [4.4-L01] **Scientists expect 45 percent of forest areas to change completely over the next 80 years.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 8-11 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

8. [4.4-L02] **The report describes the purple frog as able to run very fast.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. [4.4-L02] **The reporter says the purple frog spends most of its time underground.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. [4.4-L02] **The frog's call is compared with the sound of a large dog.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

11. [4.4-L02] **The researcher will use social media to raise public interest.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 12-15 True, False, Not Given

TRUE: agrees with the assigned LONG clip. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

12. [4.4-L02] **Everyone considers the loss of this type of frog important.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

13. [4.4-L02] **A university researcher is credited with discovering the frog.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

14. [4.4-L02] **The researcher treats the frog's problems as unrelated to the rainforest.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

15. [4.4-L02] **Farmers and company owners are named as participants in the planned meeting.**

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 16-20 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

16. Forest problems located in India's Western Ghats.

☐ 4.4-L01 ☐ 4.4-L02

17. A researcher planning to present forest information the following week.

☐ 4.4-L01 ☐ 4.4-L02

18. Warming introduced as an issue affecting the whole world.

☐ 4.4-L01 ☐ 4.4-L02

19. An appeal to interest people in saving the frog and other rainforest animals.

☐ 4.4-L01 ☐ 4.4-L02

20. Temperature changes preventing the normal growth of forests.

☐ 4.4-L01 ☐ 4.4-L02

Questions 21-25 Matching information

Which LONG audio contains each piece of information? Tick **ONE** box. You may use a code more than once.

21. Cutting down trees described as making warming worse.

☐ 4.4-L01 ☐ 4.4-L02

22. A gathering to discuss both climate and rainforest protection.

☐ 4.4-L01 ☐ 4.4-L02

23. A call for immediate planning to prevent the complete loss of species.

☐ 4.4-L01 ☐ 4.4-L02

24. Trees taking in a gas that heats the atmosphere.

☐ 4.4-L01 ☐ 4.4-L02

25. A transition from the conservation report to the weather report.

☐ 4.4-L01 ☐ 4.4-L02

Passage C - Planning for Desert Heat

A A desert journey is not only a question of direction. Heat can become **dangerous** before a traveller notices a problem, so a plan begins with a forecast. NOAA describes excessive heat as a major weather hazard and advises people to prepare before conditions become severe. A forecast can show when temperatures may **rise**, how long hot conditions may **last**, and whether outdoor activity should be moved to a cooler time.

B Temperature reports often give both a daily high and a daily low. The **maximum** temperature helps people prepare for the hottest part of the day, while the **minimum** temperature shows what may happen later. This matters in deserts because hot days and cooler nights can require different clothing and shelter. A large difference does not make either period safe by itself. It tells travellers to plan for changing conditions instead of carrying one idea of desert weather all day.

C Shade can reduce direct sun, but it is not a complete solution. A hat may **cover** the head, and a shelter can reduce sun exposure, yet hot air can still affect the body. People need water, rest and a route that allows them to stop safely. A journey should be shorter when heat risk is high. Long distances across a **huge** desert area make access to water and rest important. A route should match these conditions.

Passage C - Planning for Desert Heat

D Heat warnings also change transport choices. A parked vehicle can warm quickly, so people should not treat it as a place to wait without thought. A route needs reliable communication and a known place to get help. If temperatures **increase** beyond the expected level, a plan may need to change. Turning back or delaying travel can be a sensible decision. Good preparation gives people options before tiredness makes every choice harder.

E Desert weather can seem **almost** simple because rain is scarce, but heat, wind and distance can work together. Temperatures may **decrease** after sunset, but a person should still check local advice rather than guess. The useful skill is to read weather information, know the limits of a plan and act early. Planning before a journey gives travellers more options than waiting until a problem has already become an emergency. It also means telling another person where the journey will go and when it is expected to finish. If a plan changes, that person needs the new information. Clear planning is useful long before anyone feels unwell.

Reading Homework 3

Book 2 Unit 4

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A-B**. Questions 6-10: **C-D**.

A desert heat plan begins with a **(1)** _____ . NOAA treats excessive heat as a major weather **(2)** _____ . Forecasts can show how long hot conditions may **(3)** _____ . The daily **(4)** _____ temperature helps travellers prepare for the hottest time. Desert nights may be **(5)** _____ than days.

Shade can **(6)** _____ direct sun, but people need ‘water, **(7)** _____ and a route’. A parked **(8)** _____ can warm quickly. A route needs reliable **(9)** _____ . If temperatures **(10)** _____ beyond the expected level, the plan may need to change.

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Buying a train ticket
ii. Keeping transport plans flexible
iii. Planning and communication on a journey
iv. Using a forecast for a desert trip
v. Preparing for high and low temperatures
vi. The history of computer games
vii. Reducing exposure along a safe route

11. Choose the best heading for paragraph A.

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

12. Choose the best heading for paragraph B.

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

13. Choose the best heading for paragraph C.

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

14. Choose the best heading for paragraph D.

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Choose the best heading for paragraph E.

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. When does NOAA advise people to prepare for heat?

- ☐ A. Before conditions become severe
- ☐ B. When a cinema ticket is booked
- ☐ C. Only after all outdoor activities are finished

17. How can advance weather information influence the time chosen for an outdoor activity?

- ☐ A. It proves every outdoor activity is equally safe
- ☐ B. It may support moving the activity to a less hot time
- ☐ C. It determines the name of a music album

18. Why can desert days and nights require different preparations?

- ☐ A. A classroom timetable has changed
- ☐ B. Clothing and shelter may need to suit different conditions
- ☐ C. One set of weather conditions continues unchanged

19. What does the daily minimum temperature help a traveller understand?

- ☐ A. How cool it may become later
- ☐ B. The result of a football match
- ☐ C. The hottest part of the day

20. Why is shade alone insufficient?

- ☐ A. A hat always prevents all heat effects
- ☐ B. The price of a train ticket is too high
- ☐ C. Hot air can still affect the body

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. How should high heat risk affect the planned length of a journey?

- ☐ A. The person should order a different restaurant meal
- ☐ B. The distance should always be increased
- ☐ C. The journey should be shorter

22. Which decision does the passage recognise as sensible?

- ☐ A. Turning back or delaying travel
- ☐ B. Keeping the same plan regardless of conditions
- ☐ C. Choosing a new school uniform

23. Why should travellers check local advice even after sunset?

- ☐ A. Sunset guarantees safe conditions everywhere
- ☐ B. Conditions should be checked rather than guessed
- ☐ C. Sunset changes the rules of a board game

24. What journey information should be shared with another person?

- ☐ A. The lyrics of a favourite song
- ☐ B. Only the colour of a traveller’s clothes
- ☐ C. The route and expected finish time

25. What should happen if a traveller changes the plan?

- ☐ A. The person told about the journey needs the new information
- ☐ B. A library membership should be renewed
- ☐ C. The change should always be kept secret

Speaking Homework 3

Book 2 Unit 4

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Less rain".
the soil, Less rain, can cause, to become dry

2. Start with "The path".
was wet, we walked carefully, so, The path

3. Start with "Strong winds".
fallen branches, can lead to, Strong winds

4. Start with "Because the room was hot,".
Because the room was hot,, we, the window, opened

5. Start with "This change".
wildlife near the lake, affect, may, This change

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: The wet path explains your slow pace. Choose because or but.

Friend: Why are you walking slowly?

You: _____ the path is wet.

7. Situation: The wind blew papers away. Choose result or reason.

Friend: What happened to your notes?

You: The wind picked up. As a _____, some papers blew away.

8. Situation: Dry weather caused the soil to become hard. Choose caused or enjoyed.

Friend: Why is the ground so hard?

You: The dry weather _____ it to become hard.

9. Situation: Your group expects less shade after tree loss. Choose more or less.

Friend: What could happen if those trees disappear?

You: There could be _____ shade.

10. Situation: Rain interrupted the game. Choose because or so.

Friend: Did you finish the game outside?

You: No, it started raining, _____ we went indoors.

Speaking Homework 3

Book 2 Unit 4

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Explain a short cause-and-effect chain.

Opening: One small change can affect the whole afternoon.

A	This rain makes the field too wet for the game.
B	As a result, the game moves indoors.
C	Heavy rain falls on the field.

12. Explain how shade affects a place.

Opening: There is a reason we like that corner of the park.

A	Tall trees provide shade over the benches.
B	That makes them a pleasant place to rest on a warm day.
C	Because of this shade, the benches receive less direct sunlight.

13. Explain an effect of dry weather.

Opening: The garden shows what the weather has been like.

A	Some plants in the dry soil are beginning to wilt.
B	Without that rain, the soil has become dry.
C	There has been very little rain.

14. Explain why a path needs attention.

Opening: Our usual route is difficult to use today.

A	Strong wind has broken several branches.
B	The blocked path means we must use another route.
C	Those branches have fallen across the path.

15. Explain a possible effect on animals.

Opening: Changes near a lake can matter to more than people.

A	A long dry period may lower the lake's water level.
B	That change in feeding area may make some animals move elsewhere.
C	The lower water level could change the animals' feeding area.

Speaking Homework 3

Book 2 Unit 4

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Explain one weather event and a chain of two effects in an everyday situation.

Model: Heavy rain fell during the afternoon. The playing field became very wet. As a result, our match could not continue outside. The teams moved to the sports hall.

17. Explain why a shady place may be useful on a warm day. Support your explanation with a visible feature.

Model: The trees shade the benches in our park. Less direct sunlight reaches the seats. This makes the area more comfortable on a warm afternoon. I would choose it for a short rest.

18. Describe a possible effect of dry weather on a local place. Use cautious language.

Model: A long dry period may lower the water level in a pond. Some shallow areas could become dry. This could reduce the space available to pond animals. The effects would depend on how long the dry weather lasts.

Speaking Homework 3

Book 2 Unit 4

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

19. Explain a change to a class plan using cause-and-effect language.

Model: The forecast suggests strong wind tomorrow. That could make our outdoor display difficult to use. We plan to put the display in the hall instead. This change should help visitors read the posters.

20. Describe a weather observation and distinguish it from a possible explanation.

Model: The path is covered with fallen leaves today. I also noticed strong wind last night. The wind may have moved the leaves onto the path. I would check the weather record before being certain.

Speaking Homework 3

Book 2 Unit 4

Questions 21-22 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: cause, prevent, dry

21. Explain a cause and effect shown by the covered picnic area.

Words: prevent, cool, become

22. Give one benefit and one limitation of this covered space.

Speaking Homework 3

Book 2 Unit 4

Questions 23-25 Describe the picture

Write key words, then record one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: cause, prefer, cool

23. Describe the person working in the shade and suggest why she chose this place.

Words: dry, save, carefully

24. Suggest a response to warm, dry weather and explain why.

Words: prefer, cause, carefully

25. Explain how the tree could affect a gardener's choice of working place.

Writing Homework 3

Book 2 Unit 4

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "July".

July, was, June, warmer than

2. Start with "The afternoon".

The afternoon, the warmest part, of the day, was

3. Start with "Town A".

had, Town B, more rain than, Town A

4. Start with "The minimum temperature".

lower, was, The minimum temperature, on Monday

5. Start with "The record".

a clear rise, The record, shows, in temperature

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Data: A 16°C. B 21°C. Use the comparative of warm.

Place B was _____ than Place A.

7. Data: 8°C, 12°C, 17°C. Use the superlative of high.

The _____ temperature was 17°C.

8. Data: Monday 14 mm. Tuesday 6 mm. Choose more or less.

Monday had _____ rain than Tuesday.

9. Data: morning 7°C. Afternoon 18°C. Use the comparative of cold.

The morning was _____ than the afternoon.

10. Complete the example marker with example or result.

The afternoons were warm. For _____, Friday reached 24°C.

Writing Homework 3

Book 2 Unit 4

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a paragraph comparing two places.

A This difference was greater than the morning gap of two degrees.
B Place A was warmer than Place B in the record.
C Its afternoon temperature was 22°C, compared with 17°C in B.

☐ B-C-A ☐ A-C-B ☐ C-A-B

12. Order a paragraph describing the wettest day.

A That amount was twice Tuesday's total of 10 mm.
B Its total was 20 mm.
C Wednesday had the most rain in the record.

☐ B-A-C ☐ C-A-B ☐ C-B-A

13. Order a paragraph with an example.

A Temperatures rose across the three recorded mornings.
B By Wednesday, that rise had continued to 13°C.
C For example, they increased from 8°C on Monday to 11°C on Tuesday.

☐ A-C-B ☐ B-A-C ☐ A-B-C

14. Order a paragraph about a range.

A The minimum was 4°C and the maximum was 19°C.
B The difference between those values was 15 degrees.
C The data show a large daily temperature range.

☐ C-A-B ☐ B-A-C ☐ C-B-A

15. Order a paragraph with a clear topic.

A At nine, the temperature was only 6°C.
B This was eight degrees below the afternoon value.
C The evening was the coolest part of this record.

☐ B-C-A ☐ C-A-B ☐ B-A-C

Writing Homework 3

Book 2 Unit 4

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Compare temperatures: Town A morning 9°C, afternoon 22°C. Town B morning 7°C, afternoon 17°C. Start with a topic sentence.

Model using different data: Place C was warmer than Place D at both recorded times. In the morning, C was 10°C and D was 8°C. In the afternoon, C reached 21°C, while D reached 16°C. The afternoon difference was larger.

17. Describe rainfall: Monday 5 mm. Tuesday 10 mm. Wednesday 20 mm. Give an overview and supporting figures.

Model using different data: Rainfall increased across the three days in this record. It began at 3 mm on Thursday. It rose to 7 mm on Friday and 12 mm on Saturday. Saturday was the wettest day.

18. Describe temperatures: dawn 3°C. Noon 14°C. Afternoon 18°C. Evening 9°C. Include the maximum and minimum.

Model using different data: The temperature rose before falling in the evening. The minimum was 4°C at dawn. It increased to 15°C at noon and a maximum of 20°C in the afternoon. It then fell to 10°C.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Compare two rainfall totals: Park A 24 mm. Park B 8 mm. State the difference and support a clear main point.

Model using different data: The first site had more rain than the second. Its total was 18 mm. The second site recorded 6 mm, giving a difference of 12 mm. The first total was three times the second.

20. Describe weekly highs: Monday 16°C. Tuesday 20°C. Wednesday 24°C. Use a topic sentence and an example.

Model using different data: The daily high temperatures increased steadily in the record. They rose from 15°C on Thursday to 18°C on Friday. For example, the final day reached 21°C. Each daily rise was three degrees.

Writing Homework 3

Book 2 Unit 4

Questions 21-22 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: minimum, cover, fall

21. Write a topic sentence and supporting details. Data: village minimum −4°C. Nearby town minimum 2°C.

Words: precipitation, careful, increase

22. Compare two places. Data: Village A has 3 mm precipitation. Town B has 12 mm.

Writing Homework 3

Book 2 Unit 4

Questions 23-25 Describe the picture

Write one short paragraph of 3-4 sentences for each question. Use the words if helpful.

Words: maximum, cover, minimum

23. Write a topic sentence and details about the shaded city park. Data: the maximum temperature is 28°C.

Words: reach, cover, increase

24. Compare two places. Data: shaded park 28°C. Open square 31°C.

Words: minimum, maximum, decrease

25. Describe two ways people use this park on a sunny day. Connect them in a short paragraph.
