Listening Homework 1

Book 3 Unit 1

Questions 1-5 Sentence completion

Write **ONE WORD OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

1. [1.1-S01] **Today's _____ is on using animals for work.**

2. [1.1-S02] **The host says animals have been used to help human _____ survive.**

3. [1.1-S03] **The host asks, "What about animal _____ ?"**

4. [1.1-S04] **Animals helped humans develop their _____ .**

5. [1.1-S05] **These animals work long hours and live in difficult _____ .**

Questions 6-10 Sentence completion

Write **ONE WORD OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

6. [1.1-S06] **Modern _____ can replace working animals.**

7. [1.1-S07] **Animals are often _____ when they get sick or too old to work.**

8. [1.1-S08] **In many _____ countries, people still need animals to survive.**

9. [1.1-S09] **Kuryan says that not all animal use is _____ .**

10. [1.1-S10] **The speaker mentions _____ of children in the world.**

Questions 11-15 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

11. [1.1-S01] **Which animal does the host identify as the first domesticated by humans?**

- ☐ A. horse
- ☐ B. dog
- ☐ C. a rainforest fence

12. [1.1-S01] **Which group does the host mention as animals used for food?**

- ☐ A. horses, camels and elephants
- ☐ B. two minutes for each speaker
- ☐ C. sheep, cows and goats

13. [1.1-S02] **Approximately how long ago were the first donkeys used by humans?**

- ☐ A. 6,000 years ago
- ☐ B. 5,000 years ago
- ☐ C. a factory owner’s salary

14. [1.1-S02] **Approximately how long ago were horses domesticated?**

- ☐ A. 6,000 years ago
- ☐ B. 5,000 years ago
- ☐ C. a charity meeting

15. [1.1-S03] **What question does the host raise after describing working animals?**

- ☐ A. Is this fair?
- ☐ B. Is this profitable?
- ☐ C. Where is the rainforest?

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

16. [1.1-S05] **What reward do the working animals receive?**

- ☐ A. large rewards
- ☐ B. concert tickets
- ☐ C. very little reward

17. [1.1-S06] **Who did factory owners use to get rich two hundred years ago?**

- ☐ A. children
- ☐ B. animals
- ☐ C. university lecturers

18. [1.1-S08] **What did camels and horses help humans carry?**

- ☐ A. armies and soldiers during wars
- ☐ B. goods across huge distances
- ☐ C. survey answers on a laptop

19. [1.1-S09] **According to Kuryan, what would domesticated animals need from humans?**

- ☐ A. payment
- ☐ B. more sunlight
- ☐ C. care

20. [1.1-S10] **What do some children in the world go without?**

- ☐ A. food or clothing
- ☐ B. houses or cars
- ☐ C. ivory across borders

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

21. [1.1-S02] **Which TWO facts does the host give about early animal domestication?**

- ☐ A. The first donkeys were used in Egypt.
- ☐ B. Horses were domesticated 6,000 years ago.
- ☐ C. The first donkeys were used in Europe and Asia.
- ☐ D. Horses were domesticated in Europe and Asia.
- ☐ E. The host asks them to train rainforest guards.

22. [1.1-S05] **Which TWO facts does Johnson mention about animals during war?**

- ☐ A. They carried food for armies.
- ☐ B. They transported armies and soldiers.
- ☐ C. Many died in wars.
- ☐ D. They carried armies without any animal deaths.
- ☐ E. They recorded survey results in a spreadsheet.

23. [1.1-S05] **Which TWO present-day examples of animal work does Johnson give?**

- ☐ A. Dogs pull sleds.
- ☐ B. Horses build pyramids today.
- ☐ C. Animals transport armies in present-day wars.
- ☐ D. People enter weather results in a spreadsheet.
- ☐ E. Elephants are used for logging.

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

24. [1.1-S07] **Which TWO claims support Johnson's criticism of animal work today?**

- ☐ A. Laws stop animal suffering.
- ☐ B. People still get rich by using animals to do work.
- ☐ C. Animal shelters and charities support animals.
- ☐ D. Animals have no one to represent them.
- ☐ E. Cloudy weather makes survey participants tired.

25. [1.1-S09] **Which TWO actions does Kuryan say laws and organizations take to help animals?**

- ☐ A. Laws stop every kind of animal work.
- ☐ B. Charities pay every working animal.
- ☐ C. Laws stop animal suffering.
- ☐ D. Sunlight reduces tiredness.
- ☐ E. Organizations help save wildlife.

Passage A - Beavers, Wetlands and Careful Management

A Beavers were once a **common species** in England. They disappeared from the country **due to** hunting and other pressures. In recent years, licensed projects have returned beavers to some river catchments. The purpose is not simply to put an animal back into a landscape. A release must consider how the animals may **affect** water, land and the people who use the area.

B A beaver can build dams from wood, mud and plants. These dams slow water and can create ponds, wet ground and new channels. Such features may **provide** places for wetland plants, insects, fish and birds. They can also hold water after rain. This does not mean that every site will change in the same way. The result depends on the river, the soil, the weather and the nearby land use.

C Beaver activity can support **natural** processes, but it may also create practical questions. A pond that stores water may help in one part of a catchment while water near a road, a farm track or a drainage system needs close attention. Government guidance therefore treats a release as a managed decision. It does not promise that beavers will solve flooding or improve every habitat.

D Before a project begins, applicants must describe the area and identify possible risks. Several people may use land beside the same river. If a dam could **damage** fields, buildings or important infrastructure, the plan must explain how that risk will be avoided or managed. This requirement helps local concerns become part of the decision, rather than an issue raised only after animals arrive.

Passage A - Beavers, Wetlands and Careful Management

E The plan also needs local knowledge. Landowners, farmers and river managers may know where water collects after heavy rain. They can show where a small change would matter most. A successful approach asks these groups to **cooperate** before and after release. Their information can improve site choice and arrangements for checking what happens there.

F Management does not end on the day of release. Guidance expects a project to set out how beavers will be monitored and how unwanted effects will be dealt with. Experts may advise modifying or removing a dam, fitting a device that controls water flow, or protecting important trees with guards. Their advice can **replace** guesswork with a response suited to the site. The appropriate action depends on the place and the reason for intervening.

G This careful approach has a wider purpose. Returning a lost **species** can help **protect** habitats, but a project also has to work with the people who live and work nearby. Evidence from each catchment can inform later decisions, while still leaving room for different local conditions. Beavers are therefore neither a guaranteed answer nor an automatic problem. They are part of a managed relationship between wildlife, water and land.

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A, B**. Questions 6-10: **C, D**.

Licensed projects returned beavers to river **(1)** _____. Hunting and other **(2)** _____ caused their disappearance. Beavers use wood, **(3)** _____ and plants for dams. Those dams can create ponds, wet ground and new **(4)** _____, while giving wetland plants, **(5)** _____, fish and birds places to live.

A pond that stores water may **(6)** _____ in one part of a river basin. Water near a **(7)** _____, farm track or drainage system needs attention. Before release, **(8)** _____ must describe the area. If a dam could harm fields, **(9)** _____ or important infrastructure, plans must manage the risk. Concerns raised by local people become part of the **(10)** _____.

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Monitoring and practical interventions
ii. Dams create varied wetland features
iii. Local knowledge and cooperation
iv. Benefits and limits require management
v. A lost animal returns through planned releases
vi. Wildlife and communities over time
vii. Assessing risks before a release
viii. How changing weather alters beaver diets

11. Paragraph A

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii ☐ viii

12. Paragraph B

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii ☐ viii

13. Paragraph C

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii ☐ viii

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii ☐ viii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii ☐ viii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. Why must a beaver release be planned?

- ☐ A. It determines which instruments an orchestra plays
- ☐ B. It may affect water, land and local people
- ☐ C. It guarantees that every site develops the same pond

17. How can a beaver dam affect flowing water?

- ☐ A. It stops every river permanently
- ☐ B. It can slow the water
- ☐ C. It changes a mobile phone signal

18. Why does the guidance avoid a general promise about flood control?

- ☐ A. Effects differ with local conditions
- ☐ B. Every site has identical soil and land use
- ☐ C. The guidance sets fares for railway journeys

19. When can local concerns be considered?

- ☐ A. Before the animals arrive
- ☐ B. Only after the animals arrive
- ☐ C. During a concert

20. Who may know where water collects after heavy rain?

- ☐ A. Pilots choosing an international flight route
- ☐ B. Only people who have never visited the area
- ☐ C. Landowners, farmers and river managers

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. What does monitoring allow a project to do?

- ☐ A. Notice and address unwanted effects
- ☐ B. Choose music for a public concert
- ☐ C. Guarantee that no environmental change will occur

22. Which response may experts recommend at a particular site?

- ☐ A. Repaint the shelves in a public library
- ☐ B. Use the same intervention at every location
- ☐ C. Modify a dam or fit a flow-control device

23. What is one wider aim of returning beavers?

- ☐ A. Helping to protect habitats
- ☐ B. Changing the schedule at a cinema
- ☐ C. Ending all farming beside every river

24. How can evidence from one river basin be used?

- ☐ A. It can inform later choices while allowing for local differences
- ☐ B. It provides instructions for baking bread
- ☐ C. It proves every future release will have the same result

25. How does the conclusion describe beavers?

- ☐ A. As a guaranteed solution in every location
- ☐ B. As part of a managed relationship among wildlife, water and land
- ☐ C. As software used to organise office files

Speaking Homework 1

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Forest elephants".
Forest elephants, the rainforest, for survival, depend on

2. Start with "Poachers".
to endangered animals, Poachers, are a major threat

3. Start with "Visitors".
must not, touch, Visitors, animals in the zoo

4. Start with "Guards".
Guards, from poachers, need to protect, elephants

5. Start with "People".
a safe habitat, People, should provide, for wildlife

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: A sign at the zoo forbids visitors from feeding the animals. Choose may or must not.

Friend: What must visitors remember?

You: They _____ feed the animals.

7. Situation: A young elephant needs water and forest land to live. Choose habitat or weapon.

Friend: What does it depend on?

You: It depends on a safe _____.

8. Situation: Rangers are trying to keep rhinos safe from illegal hunters. Choose hunt or protect.

Friend: Why are the rangers working there?

You: They need to _____ the rhinos.

9. Situation: The tiger population is falling quickly and is at risk of extinction. Choose endangered or ordinary.

Friend: What should we call this animal?

You: It is an _____ species.

10. Situation: A child wants to help at an animal shelter on Saturday. Choose could or must not.

Friend: What advice can you give?

You: You _____ volunteer at the shelter.

Speaking Homework 1

Book 3 Unit 1

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Explain why forest elephants need protection.

Opening: I learned about one serious danger in the rainforest.

A	To prevent this reduction, guards need to protect the elephants.
B	Poachers kill elephants for their tusks.
C	This reduces the number of forest elephants.

12. Describe a sensible zoo rule.

Opening: At the zoo, I noticed a rule near the monkey area.

A	Following that instruction about crossing the barrier keeps people and animals safe.
B	The monkeys live behind a barrier.
C	Visitors must not cross that barrier.

13. Explain an animal's need.

Opening: A sea turtle cannot survive without one kind of place.

A	Some of those nesting beaches are damaged by buildings.
B	It lays its eggs on sandy beaches.
C	The turtle therefore needs protection from that damage to its nesting beaches.

14. Give advice to a first-time zoo visitor.

Opening: My younger cousin is visiting the zoo tomorrow.

A	Because they are wild, she should watch them from a safe distance.
B	She wants to get very close to the lions.
C	Those lions she wants to approach are wild animals in an enclosure.

15. Describe a response to illegal hunting.

Opening: Our class discussed a problem facing rhinos.

A	To prevent that threat from growing, more trained guards could catch the poachers.
B	This threatens the rhino population.
C	Some people hunt rhinos illegally.

Speaking Homework 1

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to make your own answer in 3-4 connected sentences. Write key words, then record your answer.

16. Describe an endangered animal and one thing it needs to survive.

Model: Sea turtles are endangered in many places. They depend on clean beaches for nesting. People should protect those beaches.

17. Give three pieces of advice to a child visiting a zoo. Use mustn't and should.

Model: You mustn't feed the animals. You should stay behind the barriers. You could ask a keeper questions about the animals.

18. Explain one threat to an animal and a possible response.

Model: Poaching is a threat to elephants. Poachers may kill them for ivory. Guards need to protect elephants in the rainforest.

Speaking Homework 1

Book 3 Unit 1

Questions 19-20 Follow the model

Use the model to make your own answer in 3-4 connected sentences. Write key words, then record your answer.

19. Recommend one way to help animals at a local shelter.

Model: A shelter needs food and time from volunteers. Students could collect old towels for the animals. This may make the animals more comfortable.

20. Describe why a particular habitat matters to an animal.

Model: Polar bears depend on sea ice. They use it to hunt for food. People need to reduce threats to their environment.

Speaking Homework 1

Book 3 Unit 1

Questions 21-22 Describe the picture

Write key words, then record 2-3 sentences for each question. Use the words if helpful.

Words: protect, environment, species

21. Describe the keeper and animal. Say what the keeper is doing.

Words: depend on, support, survive

22. Suggest one way a keeper can support an animal in her care.

Speaking Homework 1

Book 3 Unit 1

Questions 23-25 Describe the picture

Write key words, then record 2-3 sentences for each question. Use the words if helpful.

Words: protect, habitat, damage

23. Describe the volunteer and the marked area on the beach.

Words: protect, environment, damage

24. Imagine the marked area protects a turtle nest. Give one rule for visitors.

Words: support, endangered, habitat

25. Suggest one way people could support sea turtles here.

Writing Homework 1

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "Grey squirrels".

red squirrels on one difficult food task, had a higher success rate than, Grey squirrels

2. Start with "The whale shark".

the tiger shark, The whale shark, is heavier than

3. Start with "Both squirrels".

can carry, squirrelpox virus, Both squirrels

4. Start with "Neither squirrel".

is, an endangered species worldwide, Neither squirrel

5. Start with "Forest loss".

the red squirrel population, Forest loss, affects

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose provides or affects.

Loss of habitat _____ red squirrels.

7. Choose heaviest or heavier.

The whale shark is _____ than the tiger shark.

8. Choose both or neither. In this study, the two squirrel groups carried a virus.

_____ groups carried the virus.

9. Choose native or dangerous.

Red squirrels are _____ to Britain.

10. Choose replace or survive.

Animals need food and water to _____.

Writing Homework 1

Book 3 Unit 1

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a comparison of two sharks.

A However, it eats very small sea animals.
B In contrast to this tiny food, the tiger shark eats larger animals such as turtles.
C The whale shark is much larger than the tiger shark.

☐ B-A-C ☐ B-C-A ☐ C-A-B

12. Order an explanation of habitat loss.

A Red squirrels spend much of their time in trees.
B To address this loss, they need more protected forest to survive.
C Loss of forest habitat affects their population.

☐ A-C-B ☐ B-A-C ☐ A-B-C

13. Order a comparison of squirrel behaviour.

A They can use food provided by humans.
B Grey squirrels can adapt to cities more easily.
C Red squirrels find these new situations more difficult.

☐ B-A-C ☐ C-B-A ☐ A-C-B

14. Order a statement about a shared feature.

A However, it can be fatal to red squirrels.
B Red and grey squirrels can both carry squirrelpox virus.
C The virus does not seem to affect grey squirrels.

☐ A-C-B ☐ B-C-A ☐ C-A-B

15. Order a concise shark description.

A It can be dangerous to humans.
B The tiger shark has a grey-brown back.
C It also has a striped pattern on its body.

☐ B-C-A ☐ C-B-A ☐ A-B-C

Questions 16-18 Follow the model

Use the model to make your own answer in 3-4 connected sentences. Write your own answer with different details.

16. Compare whale sharks and tiger sharks in three sentences. Include one difference and one similarity.

Model: The whale shark is heavier than the tiger shark. However, both sharks live in oceans. The whale shark eats tiny animals, whereas the tiger shark eats larger sea creatures.

17. Explain why forest loss affects red squirrels.

Model: Red squirrels spend much of their time in trees. Forest loss removes their habitat. They need protected forests to survive.

18. Write three sentences comparing two animals you know. Use a comparative adjective.

Model: Elephants are larger than dogs. Both animals need food and water. However, elephants need much more space.

Writing Homework 1

Book 3 Unit 1

Questions 19-20 Follow the model

Use the model to make your own answer in 3-4 connected sentences. Write your own answer with different details.

19. Describe a shared feature and a difference between red and grey squirrels.

Model: Both squirrels can carry squirrelpox virus. The virus can be fatal to red squirrels. However, grey squirrels are usually unaffected by it.

20. Write a three-sentence description of an endangered species. Use protect and survive.

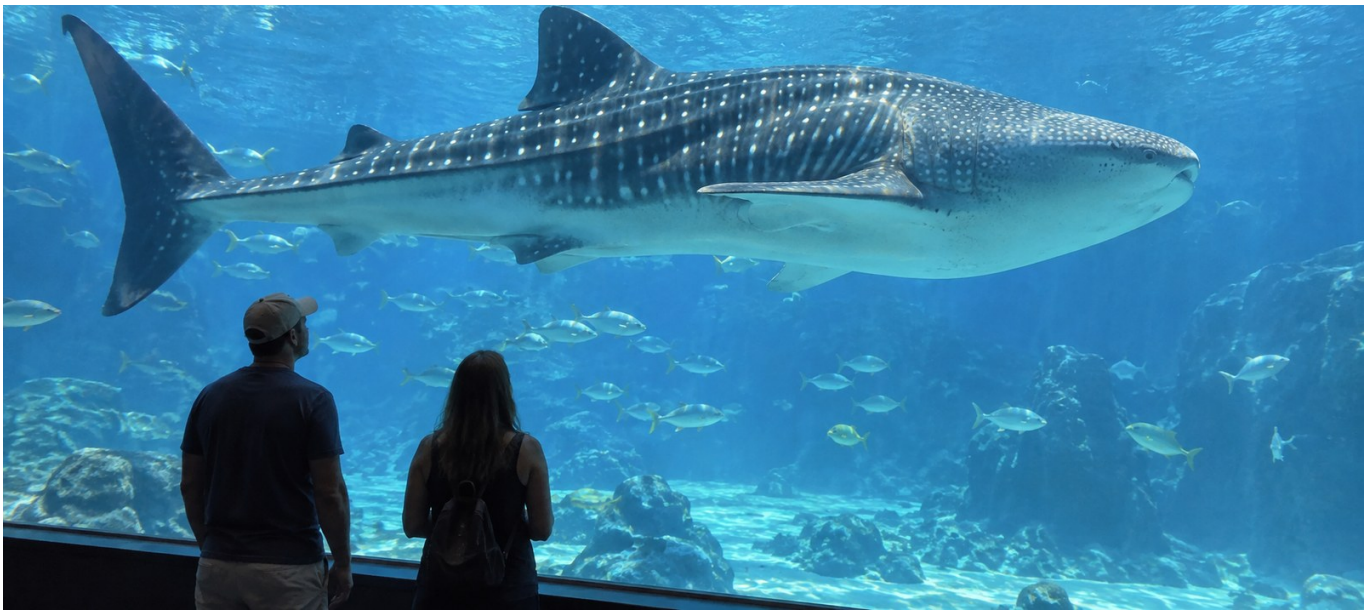

Model: The tiger is an endangered species in some places. It needs a safe forest habitat to survive. People should protect tigers from hunting.

Writing Homework 1

Book 3 Unit 1

Questions 21-22 Describe the picture

Write 2-3 sentences for each question. Use the words if helpful.

Words: species, natural, major

21. Describe the animal and where it is swimming.

Words: major, species, natural

22. Compare this animal with a tiger shark using one fact you know.

Writing Homework 1

Book 3 Unit 1

Questions 23-25 Describe the picture

Write 2-3 sentences for each question. Use the words if helpful.

Words: species, native, natural

23. Describe the two squirrels and their shared habitat.

Words: affect, native, species

24. Compare the visible colours and tails of the two squirrels.

Words: protect, natural, survive

25. Suggest one way to protect woodland squirrels.
