Listening Homework 2

Book 3 Unit 1

Questions 1-5 Sentence completion

Write **ONE WORD OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

1. [1.1-S01] **Dogs are still used to protect our _____ .**

2. [1.1-S02] **The first donkeys were used by humans about 6,000 years ago in _____ .**

3. [1.1-S03] **Dr Kuryan has written books on animal _____ .**

4. [1.1-S04] **Their hard work and suffering are hardly ever _____ .**

5. [1.1-S05] **Dogs are used to pull sleds in cold _____ .**

Listening Homework 2

Book 3 Unit 1

Questions 6-10 Sentence completion

Write **ONE WORD OR A NUMBER** from the indicated SHORT audio. Do not add % where it is printed.

6. [1.1-S06] **Johnson compares animal work to children working in _____.**

7. [1.1-S07] **Johnson calls using animals for work an old-fashioned and _____ practice.**

8. [1.1-S08] **Humans do not have the skills or _____ to do these jobs.**

9. [1.1-S09] **There are many animal _____ around the world who work in animal shelters.**

10. [1.1-S10] **The host thanks both speakers for their _____.**

Listening Homework 2

Book 3 Unit 1

Questions 11-15 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

11. [1.1-S01] **Which animal was domesticated first?**

- ☐ A. sheep
- ☐ B. concert tickets
- ☐ C. dogs

12. [1.1-S03] **What is zoology?**

- ☐ A. the scientific study of animals
- ☐ B. the study of animal rights
- ☐ C. the study of spreadsheet formulas

13. [1.1-S04] **What were elephants and horses used to build?**

- ☐ A. animal shelters
- ☐ B. amazing structures
- ☐ C. weather stations

14. [1.1-S05] **What do animals receive for their hard work, according to Johnson?**

- ☐ A. regular pay
- ☐ B. humid-weather data
- ☐ C. very little reward

15. [1.1-S05] **Which working conditions does Johnson describe for the animals in her examples?**

- ☐ A. They work long hours and live in difficult conditions.
- ☐ B. They have short days and comfortable homes.
- ☐ C. They enter results in a spreadsheet.

Listening Homework 2

Book 3 Unit 1

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question. Use the indicated SHORT audio.

16. [1.1-S08] **What does Kuryan say people in low-income countries cannot afford?**

- ☐ A. home security alarms
- ☐ B. animal shelters
- ☐ C. exam fees

17. [1.1-S09] **Which outcome does Kuryan say domesticated animals would face without humans?**

- ☐ A. They would all become wild at once.
- ☐ B. They would not survive.
- ☐ C. They would record weather data.

18. [1.1-S09] **What do laws mentioned by Kuryan stop?**

- ☐ A. animal work
- ☐ B. lack of sunlight
- ☐ C. animal suffering

19. [1.1-S09] **What do charities and organizations help save?**

- ☐ A. working animals' wages
- ☐ B. wildlife
- ☐ C. weather forecasts

20. [1.1-S10] **What contrast does Kuryan make near the end?**

- ☐ A. Animals may receive more concern than people in low-income countries.
- ☐ B. People in low-income countries always receive more concern than animals.
- ☐ C. Spreadsheet software predicts rainfall.

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

21. [1.1-S01] **Which TWO roles of animals are mentioned by the host?**

- ☐ A. Dogs carry goods across huge distances.
- ☐ B. Dogs keep people safe.
- ☐ C. Sheep pull sleds.
- ☐ D. Elephants calculate weather-survey totals.
- ☐ E. Sheep are used for food.

22. [1.1-S04] **Which TWO points introduce Johnson's long-history case?**

- ☐ A. Animals worked side by side with humans for thousands of years.
- ☐ B. Animals began working with humans only recently.
- ☐ C. Animals helped humans survive.
- ☐ D. Animals made human survival harder.
- ☐ E. Animals measured rainfall for a weather station.

23. [1.1-S08] **Which TWO jobs does Kuryan say animals helped humans do?**

- ☐ A. build home security alarms
- ☐ B. carry goods
- ☐ C. run animal charities
- ☐ D. hunt
- ☐ E. measure hours of sunlight

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question. Use the indicated SHORT audio.

24. [1.1-S07] **Which TWO criticisms does Johnson make about working animals?**

- ☐ A. They all have people to represent their rights.
- ☐ B. They are guaranteed paid leave when old.
- ☐ C. They have no one to represent their rights.
- ☐ D. They update a concert schedule.
- ☐ E. They are often abandoned when sick or too old.

25. [1.1-S10] **Which TWO details occur near the end of the debate?**

- ☐ A. Some children go without food or clothing.
- ☐ B. Every child receives the same treatment as animals.
- ☐ C. The host asks Johnson to begin her speech again.
- ☐ D. The host next invites the audience to respond.
- ☐ E. The speakers update a weather spreadsheet.

Passage B - How Wildlife Trade Controls Work

A International trade can **affect** wild animals and plants when demand encourages people to take them from the **natural** environment. CITES is an agreement that helps **protect** listed **species** from trade that could harm them. It does not ban every movement of every animal or plant. Instead, it sets controls for particular specimens and asks countries to check each case.

B A specimen can be a living or dead animal or plant. It can also be an animal part, a plant material, or an item made from one. This wide meaning matters because a trade rule may apply even when an object does not look like a whole animal. Before moving an item, a person should identify the **species** and check whether it appears on the relevant list.

C In Great Britain, a person normally needs a permit to bring a listed specimen into the country, send one out, or send it on to another country. The Animal and Plant Health Agency issues these documents. A permit is not a simple label that can be used without thought. The applicant must give accurate information, and the authority of the other country may also need to issue its own document. This is why authorities need to **cooperate** across borders.

D The level of control depends on the listing. Some specimens need stronger protection because trade could **damage** a population that is already under pressure. Annex A has the highest level of protection. Commercial use of Annex A specimens usually requires a certificate issued for that purpose. This rule is intended to avoid making an **endangered** population less able to **survive**.

Passage B - How Wildlife Trade Controls Work

E A person should check the rules before paying for an item, arranging transport or signing a contract. Having a British permit does not guarantee that another country will agree to issue the corresponding permit. The decision may depend on that country's own requirements. This is why a journey that seems straightforward can still need preparation and advice.

F Documents also have to be used correctly at the border. A person moving a listed specimen may need to use an approved point of entry or exit and show the permit to UK border officials. The document helps officials check that a movement is legal. It does not **replace** other customs controls or prove that every part of a transaction meets every rule.

G These controls cannot remove every threat to wildlife. Habitat loss, hunting and pollution may continue to **destroy** places where animals and plants live. However, careful checks can reduce the risk that trade adds further pressure. The system therefore combines international rules with decisions about individual movements, rather than treating one document as a complete answer. It also requires people to recognise that an item may have a history, a source country and a legal status that are not obvious from its appearance. Good decisions depend on checking reliable information before a specimen moves.

Questions 1-5 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

1. **Demand for wildlife products can encourage animals or plants to be taken from their natural environment.**

   ☐ TRUE ☐ FALSE ☐ NOT GIVEN

2. **People are advised not to identify a specimen's species before moving it.**

   ☐ TRUE ☐ FALSE ☐ NOT GIVEN

3. **An applicant is allowed to give inaccurate information on a permit application.**

   ☐ TRUE ☐ FALSE ☐ NOT GIVEN

4. **Some specimens need stronger protection because their populations are already under pressure.**

   ☐ TRUE ☐ FALSE ☐ NOT GIVEN

5. **Once international rules exist, individual wildlife movements never need checking.**

   ☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 6-10 True, False, Not Given

TRUE: agrees with the passage. FALSE: contradicts it. NOT GIVEN: insufficient information. Tick **ONE** box.

6. A foreign authority must respond to a permit request within seven days.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

7. A permit can help border officials check whether a movement is legal.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

8. A CITES permit normally remains valid for two years.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

9. APHA issues twice as many import permits as export permits.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

10. A specimen's appearance always reveals its source country and legal status.

☐ TRUE ☐ FALSE ☐ NOT GIVEN

Questions 11-15 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

11. The agreement controls movements instead of banning all of them.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

12. A British permit holder is warned not to assume that another country will agree.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

13. A document is not proof that a transaction meets every rule.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

14. The protection category affects the strength of the controls.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

15. A permit does not replace other customs controls.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

Questions 16-20 Matching information

Which paragraph contains each piece of information? Tick **ONE** box. You may use a letter more than once.

16. A named British agency issues the required documents.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

17. Good decisions depend on reliable information before a specimen is moved.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

18. Preparations should begin before money is paid.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

19. Authorities in different countries need to cooperate.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

20. The meaning of a specimen includes goods made from animals or plants.

☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G

Questions 21-23 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

21. Which TWO can be specimens even if they are not whole animals?

- ☐ A. Only a whole living animal.
- ☐ B. An animal part.
- ☐ C. A rail ticket.
- ☐ D. A plastic object with no animal or plant material.
- ☐ E. A plant material.

22. Which TWO actions at the border may be required?

- ☐ A. Use an approved point of entry or exit.
- ☐ B. Present only a receipt instead of the permit.
- ☐ C. Choose a music playlist for the journey.
- ☐ D. Hand the permit in permanently.
- ☐ E. Show the document to UK border officials.

23. Which TWO steps should follow checking the rules?

- ☐ A. Ignoring the need for permits.
- ☐ B. Arranging transport.
- ☐ C. Assuming all countries agree.
- ☐ D. Signing a contract.
- ☐ E. Choosing a school sports team.

Questions 24-25 Multiple choice

Tick **TWO** answers, A-E, for each numbered question.

24. Which TWO statements describe the strongest protection group?

- ☐ A. Annex A has the highest level of protection.
- ☐ B. The category is chosen by ticket price.
- ☐ C. Commercial use of its specimens usually requires a certificate.
- ☐ D. Its specimens can always be imported.
- ☐ E. Its imports require no checks.

25. Which TWO conclusions reflect the limits described at the end?

- ☐ A. Permits provide advice about making desserts.
- ☐ B. A single document ends habitat loss.
- ☐ C. Other threats to wildlife may continue.
- ☐ D. Careful checks can reduce extra pressure from trade.
- ☐ E. Trade rules prevent all hunting and pollution.

Speaking Homework 2

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Local people".
near the fields, Local people could build, a fence

2. Start with "Governments".
the ivory trade, need to ban, Governments

3. Start with "Communities".
should cooperate, to protect wildlife, Communities

4. Start with "Farmers".
Farmers near elephant habitat, might, use, safer methods

5. Start with "Rangers".
quickly, illegal hunting, Rangers, must report

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: Elephants are entering farms and damaging food crops. Choose speech or fence.

Friend: What might the community do?

You: They could build a _____.

7. Situation: Two villages share one forest with endangered animals. Choose cooperate or compete.

Friend: What should the villages do?

You: They should _____ to protect it.

8. Situation: People are buying ivory across national borders. Choose buy or ban.

Friend: What law is needed?

You: Governments need to _____ the ivory trade.

9. Situation: A ranger sees evidence of illegal hunting. Choose report or hide.

Friend: What must the ranger do?

You: She must _____ it quickly.

10. Situation: A farmer works near a nesting area. Choose should or must not.

Friend: What advice can you give?

You: He _____ use safer methods near the nests.

Speaking Homework 2

Book 3 Unit 1

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Recommend a response to crop damage.

Opening: Our community needs a plan for elephants near farms.

A	These night-time visits can damage crops and frighten farmers.
B	A fence around those damaged fields could reduce this problem.
C	Elephants sometimes enter fields at night.

12. Explain why countries need to cooperate.

Opening: I am preparing a short presentation about ivory.

A	Ivory can be sold across national borders.
B	Governments need to cooperate to overcome that limit and ban the trade.
C	One country cannot stop this trade alone.

13. Suggest a role for trained guards.

Opening: The rainforest is large and difficult to protect.

A	Local people may not be able to stop them.
B	Trained guards could help those local people by patrolling and reporting illegal hunting.
C	Poachers can move through remote forest areas.

14. Propose a safer farming practice.

Opening: A farm is close to a bird nesting area.

A	Heavy machines can disturb that quiet nesting space.
B	The birds need a quiet place for their eggs.
C	The farmer might avoid using those disturbing machines there in spring.

15. Explain a community solution.

Opening: A village wants to protect a nearby wetland.

A	Residents could organize regular clean-up days to remove that rubbish.
B	Rubbish from the village enters the water, threatening those species.
C	The wetland is home to many species.

Speaking Homework 2

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

16. A village has elephants near its farms. Propose a practical plan with a reason.

Model: Elephants sometimes damage crops near the village. The community could build a strong fence. Rangers should check the fence regularly. This could keep elephants and farmers safer.

17. Explain why an ivory ban needs cooperation between countries.

Model: Ivory can move from one country to another. Governments need to ban the trade together. They should share information about illegal sellers. This could make the ban more effective.

18. Recommend a way to protect a nesting habitat near a town.

Model: Birds nest near the river beside the town. People should keep rubbish away from the river. The town could put up signs near the nesting area. This may give the birds a safer habitat.

Speaking Homework 2

Book 3 Unit 1

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write key words, then record your answer.

19. Give a ranger advice for responding to suspected poaching.

Model: A ranger finds footprints near an elephant area. She must report the evidence quickly. Trained guards could search the area together. They should avoid putting themselves in danger.

20. Suggest a shared action for protecting a threatened species.

Model: Frogs in a local pond are becoming rare. Schools and families could clean the pond together. People should not pour chemicals into the water. This could improve the frogs' habitat.

Speaking Homework 2

Book 3 Unit 1

Questions 21-22 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: protect, damage, species

21. Describe the rangers and fence. Suggest what they may be checking.

Words: protect, damage, environment

22. Suggest how the rangers could record a problem with the fence.

Speaking Homework 2

Book 3 Unit 1

Questions 23-25 Describe the picture

Write key words, then record 3 connected sentences for each question. Use the words if helpful.

Words: protect, environment, species

23. Describe the volunteers' work and a possible purpose.

Words: damage, suffer, environment

24. Explain one possible problem if the rubbish is left beside the pond.

Words: support, depend on, environment

25. Suggest a community activity to support this pond.

Writing Homework 2

Book 3 Unit 1

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Write each full sentence.

1. Start with "The tiger shark".

has, and a powerful bite, sharp teeth, The tiger shark

2. Start with "The whale shark".

an aggressive hunter, is not, The whale shark

3. Start with "Whale sharks".

whereas tiger sharks, Whale sharks, are more dangerous, are larger,

4. Start with "Both species".

live, Both species, in major oceans

5. Start with "Neither species".

needs, a freshwater habitat, Neither species

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose and or or. Add a second feature.

The tiger shark has sharp teeth _____ a powerful bite.

7. Choose so or whereas. The sentence contrasts two behaviours.

Whale sharks feed by filtering water, _____ tiger sharks hunt larger animals.

8. Choose neither or both. In this reserve, the two shark species live only in salt water.

_____ species lives in a freshwater tank.

9. Choose aggressive or endangered.

The whale shark is not _____ towards humans.

10. Choose habitat or species.

The two shark _____ both live in oceans.

Writing Homework 2

Book 3 Unit 1

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order a contrast paragraph about shark size and diet.

A	In contrast to that tiny food, tiger sharks eat tuna and turtles.
B	Whale sharks are much larger than tiger sharks.
C	However, they eat plankton and other tiny animals.

☐ B-C-A ☐ B-A-C ☐ C-B-A

12. Order a combined-sentence explanation.

A	Together, these teeth and this powerful bite can make it dangerous to humans.
B	It also has a powerful bite.
C	The tiger shark has sharp teeth.

☐ C-A-B ☐ B-A-C ☐ C-B-A

13. Order a similarity statement.

A	Despite those shared fins and tails, their colours and diets differ.
B	Whale sharks and tiger sharks both live in oceans.
C	Both have fins and a divided tail.

☐ B-A-C ☐ B-C-A ☐ A-B-C

14. Order an endangered-species comparison.

A	People need to protect whale sharks from further threats.
B	The whale shark is an endangered species.
C	Unlike that endangered species, the tiger shark is not endangered.

☐ B-C-A ☐ A-C-B ☐ C-B-A

15. Order a comparison using neither.

A	The whale shark does not live in freshwater.
B	These two facts show that neither species needs a river habitat.
C	The tiger shark does not live in freshwater.

☐ A-C-B ☐ C-B-A ☐ B-A-C

Writing Homework 2

Book 3 Unit 1

Questions 16-18 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

16. Write four sentences comparing the size, diet and behaviour of the two sharks.

Model: The whale shark is much larger than the tiger shark. However, it eats tiny animals such as plankton. The tiger shark eats larger animals and can be dangerous to humans. Both species live in oceans.

17. Compare two animal descriptions using and. Use the classroom reading or your own supported observations.

Model: The tiger shark has a broad head and visible body markings. Its tail helps it move through water. Its shape is different from a squirrel's shape. The two animals use very different habitats.

18. Write a four-sentence paragraph using both and neither about two animals.

Model: Both red and grey squirrels have long tails. Both live in Britain. Neither species is endangered worldwide. However, red squirrels face more threats in Britain.

Questions 19-20 Follow the model

Use the model to help you express different content in 4 connected sentences. Write your own answer with different details.

19. Reserve notes: Group A has fewer nesting sites. Group B has unchanged nesting sites. Compare the situations and suggest one action.

Model: In a reserve, one animal group has lost some feeding space. Another group still has the same feeding area. The first group may need closer study. Staff should check what caused the change.

20. Write four sentences contrasting two animals for an information board.

Model: The whale shark is a gentle giant, whereas the tiger shark can be dangerous. Whale sharks eat plankton, but tiger sharks eat larger animals. Both live in oceans. Visitors should respect both species.

Writing Homework 2

Book 3 Unit 1

Questions 21-22 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: natural, common, species

21. Describe the large animal and two details in the water.

Words: major, species, natural

22. Compare the whale shark with the smaller fish visible beside it.

Writing Homework 2

Book 3 Unit 1

Questions 23-25 Describe the picture

Write 3 connected sentences for each question. Use the words if helpful.

Words: species, native, natural

23. Describe the positions of the two squirrels.

Words: species, affect, survive

24. Compare a visible similarity and difference between the squirrels.

Words: protect, chemical, damage

25. Suggest a way to protect this woodland setting.
