Passage C - Changing Drinks and Informing Families

A Who should take responsibility for reducing sugar intake? One British policy changed the question from what families buy to what companies put in their drinks. The Soft Drinks Industry Levy began on 6 April 2018. It was intended to encourage producers to change recipes and help address childhood **obesity**. A levy is a tax, but this one operated through the production and import of qualifying drinks. Its design aimed to influence the products available, rather than simply telling each customer to make a different choice.

B Under the original design, sugar concentration determined the rate. A qualifying drink containing at least five but less than eight grams of sugar in 100 millilitres attracted the lower rate. Drinks at or above eight grams attracted the higher rate. These were the original thresholds, rather than a statement about every later policy change. The launch announcement reported that more than half of manufacturers had already reduced sugar before the levy began. Changing a recipe could therefore alter a company's payment as well as the drink's contents.

C Later evidence showed substantial changes, but the figures require careful reading. Government analysis reported a 46 percent reduction in average sugar content for drinks within the levy between 2015 and 2020. The average gave greater weight to drinks with higher sales. It fell from 3.8 to 2.1 grams in 100 millilitres. This does not mean every drink lost the same share of its sugar, or that every person's intake fell by 46 percent. Product information and individual consumption are different measures. An average also describes a particular group of drinks during a stated period, not every product sold afterwards.

Passage C - Changing Drinks and Informing Families

D Information for families developed alongside action directed at industry. In 2014, a Change4Life **advertising campaign** used television, radio and online adverts to encourage food and drink swaps. A 2018 **campaign** promoted healthier snacks, and an improved Food Scanner app displayed **calories**, sugar, salt and saturated fat. This made **nutritional** information easier to examine. The size of a **portion**, meaning an amount served, still matters when interpreting a label: information about a small amount does not automatically describe everything in a large bottle. Communication helps explain choices, whereas a tax can influence producers' decisions.

E The policy illustrates why responsibility need not belong to only one group. Companies control recipes, governments set rules, and families make daily choices within the available options. A lower-sugar drink alone does not create a **balanced diet** or replace **regular exercise** within a **healthy lifestyle**. It is important to **recognize** what an outcome actually measures. Changes in drink recipes provide evidence about products. Understanding effects on people's health also requires information about consumption and other influences. The levy and public information therefore address different parts of the same problem, rather than offering one complete solution.

Questions 1-10 Summary completion

Write **ONE WORD** from the indicated paragraphs. Questions 1-5: **A, B**. Questions 6-10: **C, D**.

The levy encouraged producers to change the **(1)** _____ used to make their drinks. The article defines a levy as a **(2)** _____. The original rate depended on sugar **(3)** _____, measured as grams per 100 millilitres. The band beginning at five grams was the **(4)** _____ rate, while products at or above eight grams attracted the **(5)** _____ rate.

The reported average gave greater **(6)** _____ to products with stronger sales. It described a particular **(7)** _____ during a stated period. In the 2014 campaign, changes to food and drink choices were described as **(8)** _____. A scanner app displayed sugar, salt, saturated **(9)** _____ and calories. An amount served is called a **(10)** _____, and its size matters when interpreting a label.

Questions 11-15 List of Headings

Match each specified paragraph with its best heading. Tick **ONE** box. Some headings are not used.

i. Rates linked to sugar levels

ii. The history of glass container design

iii. Preparing athletes for a tournament

iv. Family information beside industry action

v. A levy designed to reshape products

vi. Reading an average reduction carefully

vii. Responsibility shared by several actors

11. Paragraph A

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

12. Paragraph B

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

13. Paragraph C

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. Why did the policy focus on companies as well as families?

- ☐ A. Producers can change what is available before customers choose.
- ☐ B. Town councils can use the levy to redesign bus routes.
- ☐ C. Every customer receives an identical personal diet plan.

17. What wider goal for the policy is stated in paragraph A?

- ☐ A. To guarantee that the policy alone would end childhood obesity.
- ☐ B. To choose the route for a new underground railway.
- ☐ C. To help address childhood obesity by changing industry incentives.

18. What had happened before the levy began?

- ☐ A. More than half of manufacturers had already reduced sugar.
- ☐ B. Radio stations had stopped broadcasting health programmes.
- ☐ C. No manufacturer acted until the first day of the levy.

19. Why does paragraph B call the thresholds original?

- ☐ A. They determine the delivery time for international mail.
- ☐ B. They describe the initial design and should not be assumed to cover every later change.
- ☐ C. They apply unchanged to every future version of the policy.

20. How did the reported average sugar content change between 2015 and 2020?

- ☐ A. It rose from 2.1 to 3.8 grams per 100 millilitres.
- ☐ B. It fell from 3.8 to 2.1 grams per 100 millilitres.
- ☐ C. It determined the number of seats in a theatre.

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. What limitation applies to the reported 46 percent reduction?

- ☐ A. It summarizes products in scope and does not mean each one changed equally.
- ☐ B. It sets the price of railway tickets for the same period.
- ☐ C. It proves that every person's sugar intake fell by exactly 46 percent.

22. How does family information differ from the levy?

- ☐ A. Information teaches musicians how to tune an instrument.
- ☐ B. Both measures guarantee the same decision from every family and company.
- ☐ C. Information helps people examine choices, while the levy can influence producers.

23. Which channels carried the 2014 campaign?

- ☐ A. Only printed leaflets delivered to homes
- ☐ B. Vehicles carrying furniture to shops
- ☐ C. Television, radio and online services

24. Why is a reformulated product not a complete health solution?

- ☐ A. One product automatically creates a healthy lifestyle for every person.
- ☐ B. Health also depends on diet, exercise, consumption and other influences.
- ☐ C. The product decides when school holidays begin.

25. Which conclusion best represents the whole article?

- ☐ A. Industry policy and public information address different parts of shared responsibility.
- ☐ B. Families alone are responsible for every health outcome.
- ☐ C. The main purpose of the levy is to set fashion trends.

Speaking Homework 3

Book 3 Unit 5

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "Our programme".
solves, a clear problem, Our programme

2. Start with "The walking group".
gives, a social activity, The walking group, students

3. Start with "This idea".
relax, This idea, could help, busy students

4. Start with "First".
we, First, need to explain, the problem

5. Start with "The main benefit".
is, easy participation, The main benefit

Questions 6-10 Complete the replies

Read each situation and follow its clue to complete the reply. Record the whole reply.

6. Situation: Your notes show that students have little time after school for activity. Choose problem or solve.

Friend: **What should you explain first?**

You: First, I would explain the _____.

7. Situation: Your group suggests a short walking club to address the lack of after-school activity. Choose solve or solution.

Friend: **What could the school offer?**

You: A short walking group is one _____.

8. Situation: Your notes say that the walking group is free and anyone can join it. Choose beneficial or benefit.

Friend: **What is one good point about the plan?**

You: The main _____ is that anyone can join.

9. Situation: You are explaining why the plan is easy to run: it needs no special equipment. Choose because or although.

Friend: **Why is the plan practical?**

You: It is practical _____ it needs no special equipment.

10. Situation: You are ending a short talk after giving two reasons why busy students could join the programme. Choose recommend or recommendation.

Friend: **What is your final view?**

You: I _____ this programme for busy students.

Book 3 Unit 5

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Put these sentences in a clear order.

Opening: I noticed one problem after our last lesson.

A	To help those students, a short walk after class could be useful.
B	It needs no special equipment.
C	Many students sit indoors until late.

12. Put these sentences in a clear order.

Opening: Here is an idea our school could try next term.

A	The club could meet twice a week.
B	Some students want a social activity, such as a school club.
C	These two weekly meetings give them a regular time to talk.

13. Put these sentences in a clear order.

Opening: I have one reason for supporting this programme.

A	From those options, students can choose a suitable activity.
B	Being able to choose like this makes participation easier.
C	The programme offers several simple options.

14. Put these sentences in a clear order.

Opening: Our class discussed a small change to lunchtime.

A	It could give them a short break.
B	To help those students, a five-minute stretch could be a solution.
C	Many students stay at their desks.

15. Put these sentences in a clear order.

Opening: I would like to finish with one practical suggestion.

A	To help these students, the school could lend simple equipment.
B	Then more students could join the activity.
C	Some students do not own a ball or helmet.

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Propose a walking group for busy students.

Model: Many students sit indoors after class. I suggest a short walking group. It could meet twice a week near the gate. The group needs no special equipment. I think it is a practical idea.

17. Suggest a short break activity at school.

Model: Students often stay at their desks during lunch. A five-minute stretch could be one solution. Teachers can show three simple movements. The activity is easy to explain. I recommend trying it for one week.

18. Present an idea for a beginner sports club.

Model: Some students are nervous about joining a team. I suggest a beginner football club. The coach can use small groups. Students can practise basic passes. This may make the club easier to join.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

19. Explain why a school should provide simple equipment.

Model: Not every student owns a bicycle helmet. The school could lend a few helmets. This would help students join a cycling activity. The equipment can be checked before use. I think the idea is fair.

20. Recommend a social activity for a rainy day.

Model: Rain sometimes stops outdoor plans. I suggest an indoor table-tennis hour. Students can play in pairs. They can talk while they wait for a turn. This is a social activity for a wet day.

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Write a 4-5 sentence paragraph giving your opinion about a school gardening club. State an opinion, give a reason and finish with a recommendation.

Model: In my view, the school should offer a gardening club. Students could work together after class. The club would give them a shared outdoor task. For example, they could water plants and use small tools. For these reasons, I support the idea.

17. Write a 4-5 sentence paragraph explaining the purpose of an activity-information campaign. Include its purpose, two details and a result.

Model: The purpose of an activity-information campaign is to give students clear choices. Posters could show club times and meeting places. A noticeboard could also list simple equipment. Students could read the information during a break. This would help them choose an activity.

18. Write a 4-5 sentence paragraph that contrasts an outdoor activity with an indoor option. Use but and end with your view.

Model: Outdoor football is exciting, but rain can stop a game. The school could offer table tennis indoors on wet days. Students would still have a place to meet after class. This option needs a room and a table. I think both activities are useful.

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Write a 4-5 sentence paragraph supporting the idea of lending simple sports equipment. Include a main argument and a specific example.

Model: The school should lend simple sports equipment at lunchtime. Some students do not bring a ball from home. For example, a teacher could keep a few balls near the field. Students could borrow one and return it after the game. This would let more students join the activity.

20. Write a 4-5 sentence concluding paragraph recommending one practical school activity. Summarize the idea and state a final recommendation.

Model: A short walking group is a practical activity for after school. It needs a clear route and a meeting time. Friends can join the group together. The plan is easy to explain on a noticeboard. For these reasons, I recommend trying it next term.
