Passage C - Looking Behind a Clothing Order

A An **offshore** clothing order connects a buyer with production in another country. In Cambodia, Better Factories Cambodia developed a way to examine the workplace behind such orders. The International **Labour** Organization began monitoring garment factories in 2001. The work focused on **labour** standards and **working conditions**, rather than judging clothing by its appearance alone. This mattered for a **multinational** business buying products from a distant **supplier**. The quality of a finished shirt could not reveal everything about the factory where people had made it.

B The early reports described both strengths and problems. The first ILO report found no evidence of child or forced **labour** in the factories it investigated, but it found difficulties involving overtime payments, hours and discrimination against unions. Those findings referred to the investigated factories, rather than every workplace in the country. An assessment could identify a specific problem for further action. It was not a guarantee that an entire national **manufacturing** industry had reached the same standard, or that a good result would remain unchanged.

C In March 2014, the programme launched an online database that made information about individual garment factories public. The initial reporting covered basic legal requirements. Its critical-issues category covered fifty-one factories and twenty-one basic requirements. These were stated boundaries for the initial comparison, rather than a count of every possible workplace issue. The ILO described improvements made by some factories before their information appeared. Reported changes included emergency drills and payment of seniority-related benefits. A buyer could therefore consider more than a **brand** image when looking at the production chain. Making results visible gave factories another reason to address recorded problems, although publication and improvement were separate steps.

Passage C - Looking Behind a Clothing Order

D A later independent assessment examined participation in the programme during 2015 to 2018. It reported reduced overtime without reduced take-home pay as factories followed working-time and pay rules more closely. It also found productivity improvements, alongside higher costs of meeting the rules. Researchers suggested that buyers' pricing terms might need adjustment. A company deciding to **outsource** work could not assume that improving conditions cost the producer nothing. Orders sent **overseas** joined commercial choices at one end of a chain with workplace changes at the other.

E There were important limits to what the programme's figures answered. The ILO's 2014 account stated that factory-level monitoring did not decide whether the **wage** level itself was adequate. Following a payment rule and earning enough for a satisfactory life are different questions. The later study also identified concerns requiring further attention. These accounts show why a responsible discussion of clothing production needs the scope and date of evidence. Recorded improvements deserve attention, but they do not remove the need to ask which workers, which rules and which remaining problems are being described.

14. Paragraph D

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

15. Paragraph E

☐ i ☐ ii ☐ iii ☐ iv ☐ v ☐ vi ☐ vii

Questions 16-20 Single choice

Tick **ONE** answer, A-C, for each question.

16. What purpose did Better Factories Cambodia serve?

- ☐ A. It judged shirts only by their colour
- ☐ B. It studied communication among bees
- ☐ C. It examined workplaces behind foreign production

17. What could the quality of a finished shirt fail to reveal?

- ☐ A. Everything about the factory that made it
- ☐ B. The visible finish of the shirt itself
- ☐ C. The chemistry of rocks on the Moon

18. How broad were the first report's findings?

- ☐ A. They proved conditions in every workplace
- ☐ B. They applied to the investigated factories
- ☐ C. They measured the depth of rivers

19. What could an assessment do with a specific problem?

- ☐ A. Identify it for further action
- ☐ B. Use it to date prehistoric fossils
- ☐ C. Certify an entire national industry

20. What could a purchasing company consider besides a brand image?

- ☐ A. Only the company's advertising
- ☐ B. Evidence from the production chain
- ☐ C. The speed of passing comets

Questions 21-25 Single choice

Tick **ONE** answer, A-C, for each question.

21. When did some factories make reported changes?

- ☐ A. When glacier colours changed
- ☐ B. Only after every report had appeared
- ☐ C. Before their information appeared

22. What did making results visible give factories?

- ☐ A. Another reason to address recorded problems
- ☐ B. Proof that publication solved every problem
- ☐ C. A method for mapping volcanoes

23. Which period did the later independent assessment examine?

- ☐ A. 1990 to 1993
- ☐ B. The Bronze Age
- ☐ C. 2015 to 2018

24. Which cost assumption did the later analysis reject?

- ☐ A. That meeting rules can increase costs for producers
- ☐ B. That better conditions cost the producer nothing
- ☐ C. That hurricanes needed new names

25. According to the ILO, what did factory-level monitoring leave undecided about wages?

- ☐ A. Whether every improvement would last forever
- ☐ B. Whether pay was adequate
- ☐ C. The distance between planets

Speaking Homework 3

Book 3 Unit 7

Questions 1-5 Build sentences

Put the word groups in order. Use each group once. Do not add words or change word forms. Record each full sentence.

1. Start with "The purpose of the interview".
is to learn, The purpose of the interview, about a designer’s career

2. Start with "A good interview question".
the purpose statement, A good interview question, should relate to

Book 3 Unit 7

Questions 11-15 Order and speak

Put sentences A-C in order. Record the opening, then read all three sentences in the correct order. Do not read the letters.

11. Explain how your group prepared.

Opening: Here is how we prepared to meet the designer.

A	Finally, we checked those questions with our teacher.
B	First, we chose to learn about the designer's training.
C	With that purpose in mind, we wrote five questions about her course.

12. Explain how you followed up an answer.

Opening: I wanted to find out how her career began.

A	Her answer to this second question explained why customer feedback matters.
B	The designer told me that she first worked in a small shop.
C	I then asked what she had learned in that shop.

13. Explain how you improved a question.

Opening: One of our questions needed a small change.

A	The two shorter questions were easier for the designer to answer.
B	We split that question into two separate questions.
C	Our first question asked about both training and advertising.

14. Describe the start of an interview.

Opening: The interview got off to a good start.

A	First, I thanked the designer and explained our project.
B	Her answer gave me an idea for my next question.
C	After this introduction, I asked about her first collection.

15. Explain how you shortened a question list.

Opening: We had to shorten our question list.

A	From that list, we selected five about the same topic.
B	We began with ten possible interview questions.
C	We then arranged those five questions in a useful order.

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write key words, then record your answer.

16. Imagine you are opening an interview with a local designer. State your purpose and ask two related questions.

Model: Thank you for joining us today. We would like to learn how you started designing clothes. What first interested you in design? How did you develop that interest?

17. A designer says that a difficult project taught her a lot. Respond and ask two specific follow-up questions.

Model: That sounds like a challenging project. I would like to hear more about the first sample. What went wrong with it? How did you solve that problem?

18. Imagine you are interviewing a shop owner about customer preferences. Introduce this topic and ask two focused questions.

Model: Let us talk about your customers now. I am interested in how their needs affect your designs. Which features do customers ask for most often? How do you use those requests?

a paragraph, a clear claim,, needs supporting evidence, In addition to

Questions 6-10 Complete the sentences

Complete each sentence. Follow the word choices or clues in each question.

6. Choose due to or in spite of. This phrase gives a reason.

_____ higher costs, the retailer changed its prices.

7. Choose on the basis of or in addition to. This phrase introduces evidence.

_____ customer feedback, the brand changed the design.

8. Choose because of or with regard to. This phrase introduces a topic.

_____ the evidence, the argument needs a source.

9. Choose in spite of or due to. This phrase shows contrast.

_____ its low price, the coat is well made.

10. Choose evidence or opinion. Facts and examples support an argument.

The paragraph needs stronger _____.

Questions 11-15 Choose the sentence order

Read sentences A-C. Tick one sequence for each question.

11. Order the claim, supporting details or consequence.

A	A class survey found that eight students needed stronger bag handles.
B	Students then tested the redesigned handles with their books.
C	On the basis of this feedback, the maker added a second layer to each handle.

☐ C-A-B ☐ B-C-A ☐ A-C-B

12. Order the claim, supporting details or consequence.

A	It then explained a small price rise to customers.
B	Due to this increase, the shop reviewed the cost of making that coat.
C	The supplier raised the price of the fabric used in a coat.

☐ B-C-A ☐ B-A-C ☐ C-B-A

13. Order the claim, supporting details or consequence.

A	The brand used these comments to create a longer sleeve pattern.
B	A new sample made with that pattern fitted the test group better.
C	Customers reported that a jacket’s sleeves were too short.

☐ B-A-C ☐ C-A-B ☐ A-B-C

14. Order the claim, supporting details or consequence.

A	A repair club opened at the school in September.
B	These repairs suggest that the club can help students use their clothes for longer.
C	During its first month, the club repaired twelve items of clothing.

☐ A-C-B ☐ A-B-C ☐ C-B-A

15. Order the claim, supporting details or consequence.

A	For this reason, the student chose the second coat.
B	A student compared two coats before choosing one.
C	In spite of its lower price, the second coat had stronger stitching than the first.

☐ C-B-A ☐ A-B-C ☐ B-C-A

Questions 16-18 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

16. Note: fabric cost rose from £8 to £10 per jacket. The shop raised the jacket price by £2. Explain whether the rise is reasonable. Use due to.

Model: A shop may need to explain a price increase to its customers. In this case, delivery cost rose by £1 per coat. Due to this change, the shop added £1 to the price. The matching increase gives customers a clear reason for the decision.

17. Feedback: six of ten students said a school bag handle hurt their hands. Argue for one design change. Use on the basis of.

Model: The maker should add larger pockets to this jacket. Seven of ten testers said the current pockets were too small. On the basis of this feedback, larger pockets would address a common problem. A new sample should be tested before production.

18. Comparison: a £20 coat has strong stitching but no hood. A £35 coat has a hood and similar stitching. Argue for one choice for everyday use. Use in spite of.

Model: I would choose the lower-priced shirt in this comparison. In spite of its price, it has the same cotton content as the dearer shirt. Both shirts also fitted the tester comfortably. The extra cost therefore offers little benefit for this buyer.

Questions 19-20 Follow the model

Use the model to help you make one focused paragraph of 4-5 sentences. Write your own answer with different details.

19. Class record: a clothing swap found new users for 18 of 24 unwanted items. Argue whether the class should hold another swap. Use with regard to.

Model: With regard to the school repair club, the first event was useful. In this record, students repaired twelve torn items in one afternoon. Those items could be worn again instead of being replaced. The school should therefore consider another session.

20. Page trial: customers asked 15 size questions before a size chart was added and 6 after it was added. Recommend keeping or changing the chart. Use in addition to.

Model: The shop should keep its new fabric information. In addition to photographs, the page now names the material in each garment. Questions about materials fell from twelve to four during the trial. This suggests that the added information helped customers.

Writing Homework 3
